MUSSALLEM NOW REEVE

Former Local Man Elected Chief Magistrate of Fraser Valley Municipality

Solomon Mussallem, who in the early days conducted a jewelry and then a grocery business in Prince Rupert, won the reeveship of Maple Ridge, in the Fraser Valley, last Saturday after a keen contest with Reeve J. B. Martyn. Mr. Mussallem received 472 votes and Mr. Martyn 403.

Reeve-Elect Mussallem has been a councillor of the municipality of Maple Ridge for two years. His defeat of the redoubtable Reeve Martyn, Vancouver papers say, came as a surprise, although it was known in Maple Ridge that he would poll a big vote.

A picture of Reeve-Elect Mussallem appears in the Vancouver Province of Monday in connection with the announcement of his success at the polls.

Historical Records Of Princess Pats

Achievements of Famous Canadian Regiment to Be Printed

WINNIPEG, Jan. 23—Historical records of the famous regiment, the Princess Patricia's Canadian Light Infantry, now a unit of the permanent force of Canada, are being prepared. Achievements of the unit and stories related about it and its members will be printed, and Major W. Wanden Berg, commanding "A" company, is making an effort to obtain material suitable for the purpose. One request has been made for a copy of a poem about the regiment written by a Canadian and starting as follows:

"Somewhere in No Man's Land today
"You will find the first command—"

NEXT HIS JUBILEE

A Bristol man, arrested for being drunk and climbing lampposts, recently made his forty-ninth appearance before the London magistrates. — London Daily Mail.

FAINT, DIZZY SPELLS
Had To Sleep Propped Up In Bed

Mrs. Norman Bishop, Salisbury, N.B., writes:—"I was troubled with faint and dizzy spells and when I would lie down I would suffer terribly with smothering spells. I got so bad I had to sleep propped up in bed.

"My doctor said it was my heart and nerves, and that I needed a good heart tonic.

"I was advised to take

MILBURN'S HEART AND NERVE PILLS

and I had not taken one box when I could lie down and sleep like a child."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited Toronto, Ont.

PEACE RIVER DISPLAY FINE

Remarkable Collection of Grains and Grasses at Fort Vermillion Experimental Farm

EDMONTON, Jan. 23—Grown 300 miles north of Edmonton, as the crow flies, at the Dominion Government Experimental Farm at Fort Vermillion, Alta., on the Peace River, a most remarkable display of grains and grasses of last season's crop are on display at the Chamber of Commerce here.

Exhibits include 13 varieties of wheat grown in experimental plots; eight of oats, five of barley, two of flax, and two of rye. The wheat includes such well known varieties as Garnet, Red Fife, Red Bobs, Marquis, etc., and the oats include Banner, Leader, Victory, and two varieties of hulless oats—Laurel and Liberty.

Twelve of the 13 varieties of wheat were sown April 30, the other, Marquis, May 8. Three of the varieties were cut August 15; two August 20; one August 21; four August 22; and three, August 28. It is significant that Marquis, sown eight days later than all the other varieties ripened as rapidly as two others sown eight days earlier—Kitchener and Red Fife.

All samples are of excellent quality, with strong root growth, sturdy stands and plump, well-filled heads, which have ripened perfectly.

New Treatment of Cancer Now

Isamin Blue Latest Means For Treating Deadly Malady

BERLIN, Jan. 20—Highly favorable results in the treatment of cancer with isamin blue, a dyestuff, were reported by Dr. H. Bernard at the recent meeting of the Berlin Medical Society.

Dr. Bernard told of satisfactory treatment of 200 cases, undertaken since 1926 at the clinic for internal medicine at Charite Hospital.

Isamin blue was found especially efficacious in combination with irradiation treatment (Roentgen, radio or diathermic). The dyestuff materially enhanced the efficacy of the rays in the dual sense of impregnating the local cancer tissues and diminishing their powers of resistance on the one hand, and on the other, of increasing the body's resisting functions against the poisonous agents by virtue of the dyestuff's disinfecting qualities.

In the ensuing discussion in which Prof. Ferdinand Blumenthal, head of the institute for cancer research, joined, it was agreed that the injection of isamin blue into the blood circulation in conjunction with irradiation represented a marked progress in the treatment of cancer.

THE WEATHER

Prince Rupert — Clear, calm; temperature, 27.
Anyox—Clear, calm, -4.
Stewart—Clear, calm, 17.
Haysport—Clear, calm, 26.
Port Simpson—Clear, calm, 12.

COMMITTEES OF COUNCIL

Material Available Falls Readily Into Classes for Mayor Orme's Choice

Mayor C. H. Orme will announce his standing committees for the year at the inaugural meeting of the 1930 city council tonight. There is not so much speculation about the personnel of the major committees this year as usual, owing to the fact that the material of the aldermanic board falls pretty naturally into the various departments on this occasion.

The chairmen from 1929 are each on the council again this year, and will, no doubt, be re-appointed unless, of course, there should be such a thing as any of them desiring not to assume the responsibilities again. That Ald. Theo Collart will retain the finance chairmanship, Ald. W. M. Brown the Board of Works, and Ald. S. D. Macdonald, utilities, seems certain. As for the new aldermanic material, it would appear natural that Ald. H. F. Pullen should go to the finance committee; Ald. J. H. Pillsbury, Board of Works; and Ald. James Black, utilities. Ald. G. W. Rudderham will, no doubt, be on both the Board of Works and utilities committee again and the probability is that Ald. P. H. Linsey will be back on the utilities committee, where he served when a member of the council previously.

Such would seem to be the natural lineup, although, of course, it will not be known definitely until his worship formally announces his appointments.

SPOKE ON RAILWAYS

Ex-Mayor S. P. McMordie Tells Rotary Club That C. P. R. Must Have New Outlet

MAY BE HERE

Showing that the trend of development of wheat production in Canada was to the north and west as evidence in the growth of the Peace River Valley and the construction of the Hudson Bay Railway, Col. S. P. McMordie told the Rotary Club at its weekly luncheon today that it was logical that the Canadian Pacific Railway should seek a new terminus on the British Columbia coast north of Vancouver. That outlet would be either at Prince Rupert or some other port would have to be found. It behooved Prince Rupert to stress its claims in the matter, for it already had strong advantages, the most important of which was that the Canadian National line was already established here. The ex-mayor reiterated confidence which he had previously expressed that the Canadian Pacific would come in here.

Col. McMordie was speaking on "The Railway Situation and Prospects in the West." G. A. Bryant, president of the Rotary Club, was in the chair.

Why Not
