## NEARLY DOUBLE PRESENT DOCK ACCOMMODATION

New Structure to be Built Here  
Will be About 1,100  
Feet Long.

SOUNDINGS TAKEN IN  
READINESS FOR WORK

Although definite plans for the new addition to be made west of the present Grand Trunk wharf, are not yet completed a fairly definite idea as to the extent of these improvements may be given. An addition of 1,100 feet is to be put on which will nearly double the present wharfage, it being now 1,500 feet long. Large sheds will be erected on the new wharf.

When the new dock is completed it will provide more accommodation for the heavy shipments of salmon that are passing through here at the present time and are taxing the available accommodation to the utmost. It will also allow more room for other kinds of freight if necessary. The new slips being built for the Whalen pulp will eliminate any handling of that commodity at the docks and with the new wharfage, the freight and storage situation should not be so congested another season.

Active operations have not yet begun on the wharf proper, but sounding has been going on for some time, in order to ascertain the exact depths for the driving of piles. It is much more economical and convenient to know the depths beforehand so that the piles can be cut about the right length before the driving begins.

## BANQUET AT ALICE ARM

Much Progress at Camp, Makes  
People of the District  
Very Optimistic.

The second annual banquet of the Alice Arm Commercial Club is to be held on Thursday night. These banquets were instituted last fall and the first one was held about a year ago. At that time, though, the people didn't have much to rejoice about as it just followed the closing down of operations after the Dolly Varden Co. had defaulted on its payments to the Taylor Engineering Company, throwing the latter into liquidation. At that time things certainly did look pretty blue.

However, this year the famous camp has made a complete recovery and activities have been going on stronger and more confidently than ever before. The Dolly Varden has been shipping high grade ore for some time and the Taylor Mining Co., which have become possessors of all the Dolly Varden property, have very bright plans for the future.

Capital from all parts of the country is flowing in for development purposes and many new mines will soon be steady ship- pers. The second annual banquet promises to be a big affair and certainly it is now backed up with actual accomplishment and very prospects instead of disappointment and a cold, lonesome winter staring the guests in the face.

## PTOMAIN POISONING

(Special via G. T. P. Telegrams.)

TORONTO, Oct. 26.—Forty or fifty people, among them the Rev. George and Mrs. Balfour, are suffering from Ptomaine poisoning as a result of a Thanksgiving supper in North Parkdale Methodist Church last night.

Miss Matilda Smith, of Alice Arm, left last evening for Seattle. She will remain there for two or three months and will meet Mr. and Mrs. Arthur Lothgren who are well known in the north. Mr. Lothgren has just recently been discharged from the U. S. army and he and Mrs. Lothgren will soon return to Alice Arm where Mr. Lothgren is interested with Salinas Bros. in the Esperanza Mines.

Bruce, the little son of Mr. and Mrs. D. J. Hancock of Alice Arm, is making a very satisfactory recovery from an operation in the General Hospital. Mrs. Hancock will return to Alice Arm as soon as the little boy can travel.

## WHERE COLDS STRIKE

The throat, breathing passages and lungs are the weak spots at which colds strike. And these are the very organs most difficult to treat, because only a breathable remedy is capable of reaching the troublelodged there. Peps provides a breathable remedy, and their superiority over remedies which are swallowed into the stomach is therefore obvious. For convenience, this breathable remedy is condensed into tablet form. To take the treatment, merely dissolve Peps in your mouth, and the medicinal vapor that is released is carried by the breath to the remotest parts of the breathing passages and lungs, healing, soothing and strengthening every part with which it comes in contact. At the same time, by destroying all disease germs, these medicinal fumes prevent the development of colds, coughs and serious chest trouble.

Carry Peps with you, and when you go from an overheated building to the bitter cold of outdoors, put a pastille in your mouth. Also as a protection against germs, keep a Peps in your mouth, when breathing the impure air of a crowded theatre or store.

For colds, asthma, or chest troubles, which have already developed, Peps are equally available, also for bronchitis, sore throat, laryngitis, etc. All dealers, 50c. box.
