MAY WRECK LABOR PARTY

It looks as if Premier Bennett of Canada may wreck the Labor party of Great Britain by pressing his policy of higher duties all round against the world and a preference to the Empire. This it is announced is being opposed by the

MacDonald Government. The Empire movement is said to be gaining impetus in Britain and this pressing of the Canadian viewpoint by Mr. Bennett will very greatly strengthen the hands of the Conservative party in that country with what results no one can forecast. Possibly Labor will go down to defeat before an avalanche of protectionist sentiment, fostered before an avalanche of protectionist sentiment, fostered by the failure of the present government to prevent the increase of unemployment in that country. In any event the government usually loses a hard-times election.

I'M five feet eight inches and weigh 210 pounds. So when I talk about underwear comfort, believe me I know! In the first place being stout I perspire more than most men-and to my mind there's only one kind of underwear that will stand that continued excess perspiration—and come out of the laundry tub soft as down-that's Stanfield's.

Another thing, Stanfield's can't be made to shrink. If you're carrying a little extra poundage think that over! There isn't one of us who hasn't had a suit of underwear that fit like a glove when we first wore it-but which looked and felt like little brother's when it came back from the wash.

So go to your dealer today—and ask him to show you this comfortable underwear. One glance and you'll see it's the best underwear value ever offered -but you'll never know how comfortable underwear can be, until you put it on.
