Spider's Thread in Surveys

In the construction of surveyors' instruments, utilized for the purpose of surveying and mapping our country, use is made of a number of different materials. The most novel of these, perhaps, is the thread of the spider, which is placed in the optical system of the elescope as an aid in sighting ipon definite objects.

According to a report from the League of Nations, France, Italy, Canada and Switzerland profit most from tourist trade.

Large purchases of industrial machinery already have been made here and the opening of a direct hipping service to Vladivostok is eing planned.

"The economic review points out that Vladivostok, which will be the incipal port for Pacific comneres, is closer by 750 miles to B. C. ports and Seattle than to Moscow. This fact is sufficient in itself to ustify direct import trade for the Far East via Vladivostok,' it says."

Woman Helps Judge Decide

TORONTO, Aug. 1:-Assistance of a fair Portia helped Judge Morson dispose of an action in division court recently. A woman sued a cleaner's company for \$30, alleging that her coat sent there for cleaning had been returned stained and with several holes. His Honor thought they looked like moth holes, but plaintiff disagreed. Miss V. L. Parsons, barrister, was asked to examine the garments. "They look like moth holes," she opined. "Of course," said Judge Morson, "judgment for the defendant with

THE BOY BEHIND THE BISCUIT

Ever see a boy behind a Shredded Wheat Biscuit? You will have to look quick before the biscuit disappearsbut wait and you will see him take another biscuit—and more milk. The more he chews the crisp shreds of baked whole wheat, the more he likes it—and that's the reason he is a real boy, full of bounding energy and radiant health. Just as good for grown-ups. Delicious with prunes, baked apples, sliced bananas or any fruit.
