Olof Hanson Returns From Successful Trip To Remote Districts

Flew From Atlin to Engineer Mine and Then to Telegraph Creek Visiting Porter's Landing and Lower Stikine—Had Fine Reception

Olof Hanson, Liberal candidate for Skeena in the forthcoming federal election, returned to the city on the Prince George this morning, accompanied by H. F. Kergin, M. L. A. for Atlin, from a successful 10-day campaign tour to the far northern part of the riding. A considerable part of the distance they travelled was covered by use of airplane and they held successful meetings at Atlin, Engineer Mine, Telegraph Creek, Porter's Landing and Lower Stikine. The reception they received convinces them that the Liberal candidate will get a good majority in that part of the district. This is good news for campaign workers who declare that in all other parts of the riding, as well, Mr. Hanson is proving a popular candidate who is gaining support in many unexpected quarters.

Mr. Hanson and Mr. Kergin went by steamer from here to Skagway and then by rail and boat into Atlin. From Atlin they flew to Engineer Mine, a distance of 60 miles, and, returning to Atlin, rode by airplane the distance of 250 miles or 80 to Telegraph Creek overland. They reached Telegraph Creek virtually by the skin of their teeth as the plane was practically out of gas when they landed on a lake nearby. After Telegraph Creek, Porter's Landing and Lower Stikine were visited and they embarked at Wrangell aboard the Prince George on which they returned home. The plane they used was a Junkers machine piloted by E. J. A. Burke.

Mr. Hanson will at once proceed to visit other points in the large riding.

Mr. and Mrs. Hermanson will make their home in Butedale.

Football game for Dominion final postponed until Wednesday.

The Political Corner

Vol. 1. Monday, June 30, 1930 No. 17.

The Five Cent Red Herring

For lack of any sound and constructive policy to offset the popular trade policy of Mackenzie King, the once great Conservative party has been driven to the dire extremity of attempting to win this election by its "five cent campaign." Because the Premier, justly indignant at the attitude of the Tories in trying to leave the child of unemployment on his doorstep—when our constitution places its responsibility squarely upon the provinces—made the statement that he would not give any Conservative province—with policies diametrically opposed to him—a five cent piece, the Tories are trying to magnify it into a political issue, and truly it is a paltry five cent campaign.

If the newspaper reports of Mr. Brady's speech are correct he deliberately misquoted Mackenzie King's statement and we note with some satisfaction that his local organ found it necessary subsequently to make the correction by quoting the Premier's exact words.

Mr. Brady should not forget that the Dominion-Provincial Conference of 1927, at which the Tory Premier of Ontario, Mr. Ferguson, was present, discussed unemployment and made a definite recommendation. It was that the provinces disapproved of federal aid towards unemployment relief, and did not wish it to be continued.

Ontario's Premier should remember that now, for he was one of the prominent figures at that assembly; and his voice carried great weight.

Gordon Henderson of Ottawa says this five cent piece issue reminds him of the old doggerel:

"The bigger that you see the smoke, the less the fire will be,
"The leastest kind of 'possum climbs the biggest kind of tree.
"The nigger at the old camp ground that can loudest sing and shout
"Is going to rob some hen roost before the night is out."
