Life Assurance is the Backlog of the Home!

You know—the timber at the back of the fireplace, against which the lighter fuel is piled and the fire is built—reflecting and increasing the comfort of the blaze—holding and radiating welcome heat when other fuel has been consumed. The backlog is what must first be secured. It remains when everything else disappears.

That is what the soundest financiers call life assurance—a Backlog! Bonds, mortgages, stocks, savings, building and loan shares—all desirable—but secondary. By life assurance an estate can be created outright. It is unaffected by market fluctuations. It is impregnable. In the Sun Life of Canada, life assurance is not only a sure bulwark against death or disability—it is a profitable form of investment.

The Sun Life of Canada has an appropriate policy to cover every need

"BUILD B. C. PAYROLLS"

Canned Cream

The pure, rich nourishment in Fraser Valley milk is saved. It is labelled Pacific Milk. Then all over the province and to foreign countries it goes to build health and tissue. Mothers praise it as the food for babies. Letters tell us it is used in every recipe. One thoughtful patron, writing, described it "the all purpose cream." That description is very good.
