

An Estate on the "instalment plan"

TO longer do young people wait until they can pay completely for their comforts, before entering into enjoyment of them. They have learned to plan their finances ahead . . . to buy "out of income".

Wisely and conservatively used, instalment-buying is a benefit. But, in excess, it may easily encourage obligations which prove difficult to meet and which, in event of a sudden reduction or cessation of income, may mean calamity.

There is, however, one form of instalment-buying which is always wise and safe . . . the pur-

chase of Life Insurance.

Life Insurance becomes an asset which never depreciates. It can be made to take care of your needs. It will protect your home and loved ones after you are gone. It covers the obligations which your other instalment purchases may incur. And the "instalments" are cancelled at your death.

In the planning of every family budget, Life Insurance deserves the place of honor. It is the only certain way of buying an estate "on the instalment

plan". Any Life Insurance representative will gladly explain its advantages.

"WHITE HORSE" is the brand most favoured by Scotsmen and they are the greatest connoisseurs of whisky. Could you make a wiser choice when choosing whisky for yourself?

"Y/HITE HORSE" is Real Old Scotch. First matured and then blended, it is again matured and reblended, so that the whisky becomes properly married. This marrying of "WHITE HORSE" is a very lengthy process and the result is a right noble spirit of subtle and distinctive aroma and bouquet, soft, smooth and very pleasing to the palate, without a trace of kick or bite.
