WEATHER

IS QUEER Manitoba Swelters Under Hot Sun Today While Alberta

Has Blizzard

WINNIPEG, May 21:-The Weather Man played a practical joke on the prairies today. While Winnipeg sweltered under a hot sun and a temperature of 70, Edmonton citizens awoke to find a spring blizzard with four inches of snow driven by a 40-mile gale. From the Peace River to the south of Red Deer, the storm was general, dislocating telephone and telegraphic services.

Forecasts are that the cold weather will move eastward tonight and to Manitoba on Thursday.

No crop damage is expected in Alberta as the snow formed a protecting blanket.

Amy Johnson Tells of Trying Flight Across Java Sea With Tropical Storm Lashing Ocean

SURABAYA, Java, May 21:-When Miss Amy Johnson dropped in on the airdrome at Samarang she related, over a cup of tea to members of the British colony, her experiences in crossing the Java

Smiling cheerfully, she described the flight from Singapore as "dreadful, dreadful-I thought I would never make it." Heavy tropical storms made her change her direction and altitude and long distances were flown close to the bounding waves. "I really thought it was the end," she said. However, she succeeded a reaching the Java shoreline and followed the coastline to Tjomal where she was forced down.

Owing to delay in effecting repairs to her magneto. Miss Johnson was unable to resume her flight Australia wards today. She hopes to start tomorrow eastward bound along the Oceanic Island chain of which Java is a part to a spot which will permit her to take off for the 500-mile crossing of the Arafura Sea to the north coast of Australia. She expects that her first stop in Australia will be at Port Darwin.

\$35 PRIZES TO BE GIVEN

Display of Flowers to Be Special Feature of Exhibition This Year

The Fair Board, at its meeting last night, W. H. Sherman presiding, decided, on recommendation of the prize book committee, to have an innovation this year. They are offering prizes of \$20, \$10 and \$5 for the best display of flowers to be made on six feet length of table, artistic arrangement as well as quality of the flowers to count. As the tables are about six feet wide this will give each exhibitor about six feet square.

Should there be a number of entries it is thought this floral display will be one of the great features of the floral exhibit. Probably exhibits may come from Hazelton, where the Horticultural Society is a live institution and where it is claimed they grow better flowers than at any point on the railway. At any rate there should be keen rivalry between the different | H. Munro, George Hill and William | stops here. points and Prince Rupert will Lambie was named to take the The plane was piloted by C.
