#### LOGGING PROSPECTS

An encouraging feature of the coming summer work occurs to me the following few lines will be the amount of logging to be done on the Queen these people. I would suggest it " Charlotte Islands. It is understood that there is a scarcity appear in a prominent position in of logs at the paper mills and that large demands will be your paper every day and let sink made on the camps of the islands this year. Not only the in. Kelly camps but the J. R. Morgan camp and several others They are culled from this will be busy.

Marriage may be a gamble but it is safer than playing the stock market.

#### NATIONAL RADIO CONTROL

It is difficult to understand what reasonable arguments there can be against national control of radio broadcast- For there's nothing that's really ing. With seven large broadcasting stations in Canada giving purely Canadian programs as proposed, a very It's a knock at yourself when you distinct forward step should be registered. If Vancouver It isn't your town-its YOU! had a powerful station, Prince Rupert would get better programs and better still would be a good station at Prince Rupert to broadcast national tie-up programs for the people of Alaska and Northern Canada. By all means let us have National Radio in Canada just as they have in England and other countries.

## Full Speed Ahead Soon

Many people do not realize that the Northern Power Company, a subsidiary of the Power Corporation of Canada, is really constructing a large hydro-electric plant to serve the city of Prince Rupert and adjoining territory. The site for the plant is being prepared and the right-of-way for the high-power lines connecting Big Falls on the Ecstall River with the city is being cleared and that during September next it is expected to turn on the power from the first unit.

What does this mean to Prince Rupert? It means that the largest power corporation of Canada has faith in the future of the city and district and already sees a market for its product.

Under the impetus of the new movement, Prince Rupert will grow. Industries will be developed and all will feel the benefit.

Prince Rupert people must prepare for the change. New buildings will be necessary. If there are no vacant houses in the city today, what will be the condition when people begin to come in?

The Daily News is alive to the situation and is laying its plans. Others must do the same if they are to keep pace with the new Prince Rupert.

Lives of spendthrifts all remind us We can have a high old time And departing leave behind us Not a solitary dime.

If a wife goes through her husband's pockets about all she usually gets is enough material for a lecture, just the same as other explorers.

"Sir," said the maid, quite haughtily, "either take your arm from around my waist or keep it still. I'm no ukelele."

One day a very pretty young lady who had a poodle dog in her lap chanced to be riding on a street car. A bluenose lady sitting next to the girl addressed her thusly: "My, what a nasty little dog. Don't you think, my young lady, it would look much nicer if you had a little baby in your lap?" "No," the pretty one replied in

calm, even tones, "it wouldn't. You see, I'm not married."

## SERVICEFOR FISHERMEN

Rev. O. H. Walby of Winnipeg I Principal Speaker at St. Paul's Lutheran Church

An address by Rev. O. Walby of Winnipeg, organizer of the Norsemen's League of Canada, was the feature of a special fishermen's service which was held last night in St. Paul's Lutheran Church with the pastor, Rev. John H. Hanson, in charge. The speaker found his text in Luke 16 and spoke on the theme "Does Character Determine Destiny?" To be charitable to one's fellowmen could only be done it the true spirit when Christ was the controlling power, Mr. Walby declared. The unhappy state of man, he held, was due to neglect of duties and lost opportunities.

There was a very large congregation at the service, the church being filled. The male choir gave four selections which were much appre-
