PROPORTIONAL REPRESENTATION

It is interesting to hear from Premier King that he believes in the principle of proportional representation and desires to see it adopted, says the Winnipeg Free Press. In referring recently in the House of Commons to some playing their wholesome games and of the planks of the Liberal platform of 1919, he mentioned proportional representation which was approved by the party at that time. "That remains to be brought As one gives thought to the inabout," sad Mr. King, "and I hope it may be before very terests of the children, the planning long." It has been reported that the government intends of the home grounds takes on a to provide for the adoption of the P.R. system in all the broader meaning. Instead of merecities in which two or more candidates are elected. That cities in which two or more candidates are elected. That for the home it should provide a would be a step in the right direction. If the use of the little portion of the world where alternative vote were also adopted in all the other con- the children may spend their time, stituencies, it would be so much the better. The best sys- developing naturally without too tem of all would be to apply P.R. to enlarged, multi-member constituencies throughout the whole country, except general beauty of the place, properhaps the very sparsely populated constituencies of the vides privacy, and keeps the child north country.

N. Mussallem Celebrates His Twentieth Anniversary in Prince Rupert Business

From wheelbarrow to the latest type of Ford and Chevrolet delivery cars tells the story of the Mussallem Grocery Co. which today is celebrating the twentieth anniversary of its founding.

It was in April, 1910 on the fifth of the month that N. Mussallem city was then in a crude condition. Fifth Avenue had no street but there was a two-plank sidewalk C.P.R. PRINCESS MARY running along it. Mr. Mussallem put up a building where his business now stands and opened in a

tain the most possible for their money. It has been as great a success as was his first store. While it was opened only last July, it already has a large number of steady customers and the business is growing all the time.

For about a year Mr. Mussallem was associated with Sol Mussallem, who afterwards opened for himself and left Prince Rupert 10 years ago. Today he is reeve of the municipal-

ity of Maple Ridge. Mr. Mussallem is glad that he stayed with Prince Rupert. He says today he has just as great faith in the city as ever he had. He is raising a large family here and all are turning out well. He intends to con? tinue to do business in the city and first arrived in Prince Rupert. The looks forward to steady growth as the city develops.

Pake Kruschen Salts in a glass of V water every morning. In three week time, get on the scales and note keener in mind. Kruschen will many fat people a joyous surprise.

to the smelter town.

OES your estate amount to ten times your income?

If so you have made unusually good provision for the future. You have assured yourself and family of an income equal to one-half your present earnings.

Suppose, for example, that you earn \$3,000 a year . . . and your estate is ten times that, or \$30,000. This total at five per cent. interest will yield \$1,500 a year. Sufficient, perhaps, to make it possible for you to live independently

in your old age. Sufficient, too, to enable your wife and

family to "carry on" if they are left alone. If your estate does not measure up to this

standard, the simplest and quickest way of bringing it up to requirements is through Life Insurance. Millions of people have built estates "on the installment plan" with the aid of Life Insurance. And in so doing they have safeguarded the future for themselves and those whom they hold most dear.

Ask your Life Insurance Representative to explain to you the many advantages of an estate founded on Life Insurance.
