Catholic Junior League

A very enjoyable evening was spent last night at the Mother's Day supper of the Junior League in the Catholic School Hall. The hall was picturesquely decorated in mauve and yellow and long tapering mauve and yellow candles and pink carnations gave the table finishing touches.

Miss Marie Murphy acted as hostess and gave the mothers a hearty welcome. This was followed with a song of welcome by the Junior League. During the supper, the following toasts were given amid much applause:

To the Church, proposed by Miss Zina Antonelli, responded to by Rev. Father Hammond.

To the Mohters, proposed by Miss Marie Murphy, responded to by Mrs. J. C. Brady.

To the Senior League, proposed by Miss Margaret Stalker, responded to by Mrs. M. P. McCaffery. To Junior League, proposed by

Mrs. J. J. Gillis, responded to by Miss J. MacDonald. The supper was followed by a musical entertainment, the pro-

Initiative Bylaw Put Through By by City Council to Build on South Side Towards McBride

The city council last night put through its initial readings a local improvement initiative bylaw to provide for the construction of a new 12-foot asphaltic sidewalk on the south side of Third Avenue from the termination of the present concrete sidewalk to Street. The sidewalk proposed would be the first of its kind in the city. The surface would be of asphalt with creosoted timber base and concrete piers.

Ald. Pullen thought that the cost and probable lifetime of the proposed sidewalk should be made clear at the outset. He was also desirous of knowing if the walk would be of good appearance and would it be of tarry surface. It was possible that again some opposition to the bylaw might develop.

City Engineer Good replied that the cost was estimated at \$165 per 25-foot lot or about \$15 a year. The lifetime of the sidewalk should be upwards of 30 years although, even like concrete walks, some attention might be required meantime. thought the surface would look well of greyish appearance. There would not be a tarry surface since only asphalt was being used.

## Alice Arm Man Weds in South

Mrs. Mary Scott of Vancouver Becomes Bride of John Sleeman

A pretty wedding was solemnized at the home of Mr. and Mrs. F. A. Ferguson, 2022 East Third, Vancouver recently, when Mrs. Marie Scott of Vancouver was united in marriage to John Sleeman of Alice Arm. Rev. H. P. Davidson of West Vancouver officiated at the ceremony.

The bride wore a yellow and blue chiffon ensemble, and carried a bouquet of yellow roses and sweet peas. Miss Peggy McGregor attended as bridesmaid, and to the strains of Mendelssohn's wedding Dollar Soda Biscuits-5's march, played by Mrs. O. H. Wellman, the bride entered the reception room, and was given in marriage by her father N. Pearson. S. E. Parker acted as best man.

The wedding supper was served mmediately after the ceremony. followed by music, when solos were sung by Mrs. L. Martin.

### F-M. Stationary Diesel Engines

For isolated power plants where electric power is not available, and for standby service, Fairbanks-Morse Diesel Engines have proven thoroughly dependable and remarkably low in power, operation and maintenance costs. In mine, mill, grain elevator, railway yard, town and city light, power and pumping plants, in countless instances they are giving entire satisfaction using cheap low grade fuel oils. They are made on the 2 cycle principle in a wide range of sizes from 25 to 840 H.P.

## Yale Hoists and Trucks

For practically every job of lifting and moving material-raw, in process or completed-there's a Yale Unit that will do the work quickly, easily and safely. There are many Yale Hoists both hand and electric powered, Yale overhead trolleys carry big loads quietly and easily, and Yale Electric Trucks and Trailers are quick to transfer material. Yale margins of safety are unusual, and Yale controls are simple, safe and easy to operate. Let us study your material moving problems -in many cases our engineers have made real savings with Yale equipment.

### Norton Grinding Wheels

For quickly removing metal, for cutting off, for producing a high finish on any material, for any service where grinding wheels can be used, you will find a Norton Wheel that will cut quicker, or produce a higher finish, or turn out more pieces at a lower cost. Norton Wheels are carried in stock at all branches and at your service are men who have made a study of removing metal by grinding. They will tell you the right wheel to produce the most work at the lowest cost.

### Transmission Equipment

To ensure the steady and economical flow of power from drive to machine, proper shafting, hangers, bearings, pulleys and belts are essential, and here you will find Graton & Knight Leather and Dick's Balata Belting. Fairbanks Wood Pulleys, Barry Steel Split Pulleys, Hyatt Roller Bearings, as well as the numerous appliances necessary for the transmission of power.
