Large Crowd at United Church An niversary Banquet Last Night; Speeches and Music

There was such a large attendance at the annual anniversary! banquet of First United Church last night that it took two table sittings to accommodate all. The affair was most successful and en-

Do You Play Bridge

THE chap who overbids his hand always loses in the long run. No person can continually bid what he hasn't got and make it.

Business in one way is something like a game of bridge . . . with merchants and manufacturers playing for your patronage. You want furniture and breakfast foods, books and clothes, radios, cigarettes and toys, groceries, fruits, vegetables, etc.—they want to sell you theirs. They bid with advertising.

The merchant who advertises an unworthy product can't win. He is simply inducing more people to find out in a shorter time how poor it is. He is overbidding his hand, and is bound to get set. Losing is too costly . . . depend upon it, products that are advertised must be good!

The advertisements in this newspaper are guides to the finest merchandise of every sort, merchandise carefully. and faithfully made, of certain, honest value. You can trust the manufacturers who write them.

> It pays to read the advertisements. They are bids backed by products that can compete in the open . . . and win.
