DAILY EDITION. Monday, Nov. 3, 1919.

Should Economize In Fuel During Strike.

The coal miners of the United States have gone out on strike and it will be the wise thing for the people of Prince Rupert to economize in coal. There is plenty in sight for some time to come, but it is never sure that the supply will continue. We may sometimes think the coal is expensive but it is worse to do without than to pay the price. If the miners remain on strike many months, it will certainly be more difficult to secure a fuel supply than it is today and possibly the prices may go higher yet.

May Burn Wood In Place of Coal.

We may have to burn wood pretty soon. If there is a coal scarcity there is wood all around us and none of us need be cold. It would do many of us good to cut wood for an hour after sitting in an office or doing other sedentary work instead of sitting around. The main difficulty is that the wood is damp and there is little opportunity to dry it this time of year.

Must Live Up to Our Reputations.

W. S. Henderson, telegraph editor of the Victoria Daily Times, says that at present Prince Rupert looks very good to the people of his city. He says that down on Vancouver Island they are expecting great things from us.

Prince Rupert must live up to her reputation which she is earning, she must show that she really is a live town. She cannot afford to allow her streets to remain as they are, for instance. There must be a change and that at once. To ride along a level road and run the Ford on Low is undignified and tends to make us feel that we are of no importance in the world. There is no need for such a condition.

The citizens as a whole are demanding that money be spent on the streets. The profits on the public utilities might well be spent in making them passable until such time as a bylaw is put through to have them properly paved.

Agrarian Government In Ontario.

Ontario is to be administered by a group of farmers, aided and abetted by labor representatives. That is a fine combination. There is no danger to the country from the farmer. He is radical in some respects but in others he is very conservative. The labor element will do him good, and on the other hand he will steady up the laborites. The only difficulty in Ontario is that the majority of supporters for the new government is very small. Possibly, however, the farmers will get some support from the Liberals.

Too large a majority does not make for good government, neither does too small a majority. When the majority is very small there is a tendency to grant concessions to certain interests in order to secure or keep their support.

Fine Diamond Engagement Ring \$100.00

A diamond is the hardest substance in the world. Nothing will scratch it. It is very hard to break even with a hammer. No acid will affect it. It can be made red hot and will come out just as bright as before.

Yet some diamonds are worth more than others. A diamond is valued for whiteness and beauty; also freedom from small imperfections such as spots and flaws.

I have had 20 years experience in the business and will guarantee satisfaction.

Besides the one mentioned above we have rings at \$50, \$75, \$250, up to a very fine large stone at \$1200.
