Reiterates Statement That Imperial Preference Was Instituted By Laurier—Conservatives Have Taken **Peculiar Stand In This Campaign** 

NEWMARKET, July 21:-In the historic riding of North York, Premier King on Saturday spoke to one of the greatest and most enthusiastic gatherings he has addressed thus far in his federal election campaign. He returned to a brief reference to the introduction of British Preference by Sir Wilfrid Laurier in 1896. "That was simply considering the first of those of our own household," said the Prime Minister. "The Conservatives are fond of talking about the British Empire but actions speak louder than words. Joe Merryfield-who came to Rupert from Vancouver to show the Tories how to run their campaign—has tried by injunction proceedings to prevent the distribution to the fishermen of a pamphlet published by the Liberal Campaign Committee. The injunction being too late was abortive and has had the result only of further accentuating to the fishermen the telegram Merryfield sent to Ottawa protesting at the polls established for the fishermen by the Liberal Government.

Everybody Welcome

There is no use in Merryfield stating there is not enough accomodation at Squadaree, Dundas and North Island for these polls to be held. He did not worry about the accomodation when the Tories were in power and had their polling booths on floats. In the last Dominion election one of the polls established by the Tories was conducted on a boat which went around from place to place collecting votes and no protest was heard from the Merryfields about this.

He did not protest at the holding of a poll on the float at Canoe Pass. Why? Was it because he thought the Canoe Pass vote would be favorable to Brady? If so, he should guess again.

At Dundas Island—one of the polls protested by Merryfield—there is not only sufficient accomodation on floats but there are buildings on the land as well, one of them being the fishermen's hall; and when he wired Ottawa protesting that if these polls were held they would have to be held on some small fishing boat or fish scow he stated something which was untrue.

Why did Mr. Merryfield say there was no such place as North Island? Why did he say it was impossible for the fishermen to establish a residence at this point?

Was it because he did or did not want the fishermen to vote? These are some of the questions the fishermen are asking them. selves concerning this Tory protest to Ottawa.

No Mr. Merryfield! Your reasons given will not wash.

It was for some other cause you wished to have these polls cancelled.
