### FREE SPEECH

In the United States recently three men were sent to jail for making remarks derogatory to their country, particularly in intimating that preparations were being made for war.

Sometimes, even in the land of the free, people are curbed a little too much. Because what a person says is be continued. objectionable to the majority of the people, does not always 5. "I would urge the cancellation of the elevator lease if the Wheat son's favors added to the gaiety of mean that it is wrong. Most great men have been in a minority and many of them have had to suffer for having been too outspoken. The great majority have been against them. That is why we should be careful in taking action against those who say things we do not like. Perhaps they may be right.

A prominent citizen in conversation yesterday said he expected to see considerable activity in this city during 1930. While we are aware that such things have been said before and nothing has happened, we also are aware that the activity will come some time and it may be earlier than

we think.

We are in full agreement with the prominent citizen. We are inclined to think we are on the verge of a considerable movement which will set people to building and cause an increase in population. Perhaps the wish is father to thought, but it is something more than a hunch this

## SAVING THE SEARCHERS

25When an aviator is lost usually a number of other aviators go to search for him and then often the searchers are of Pilot Eielson in the Behring Sea area. A number of planes are engaged in the hazardous work. Already one pose of providing employment." has crashed. Happily the men escaped injury, but it might have been otherwise.

## RADIO BROADCAST

In most countries in the world radio broadcast is a monopoly of the government and it works well. It is much better than a huge private monopoly. The other alternative is to give evryone the right to establish stations and thus cause unlimited interference.

In Britain the state has absolute control and those who have lived in the British Isles say the reception conditions toys, books, etc. for repairs and been a member of the board for 21 there are excellent. While not in favor of government control of everything, this is a case something like the post office where the only successful method of handling is by a huge state monopoly.

Only a few days ago a speaker over-one of the U.S. stations strongly urged government control in that country in order to avoid conditions which tend to destroy the usefulness of this wonderful servant of the people.

rirst sailor: "What about that ten bob?"

Second sailor: "I haven't forgotten-still got it in my mind." First sailor: "Well, now's a good chance to relieve yer mind."-London Opinion..

# H. F. PULLEN OFFERS AS ALDERMANIC CANDIDATE

## Managing-Director of Daily News Seeks Seat on City Council This Year

H. F. Pullen, managing-director of The Daily News, announces that he will be a candidate for the office of alderman at the forthcoming general election. In connection with his candidacy Mr. Pullen says: "I have no particular criticism to make of the work of the city council of last year, but I feel that at a time when there is hope of expansion and great need for it, there should be an active campaign to try to bring this about and that without spending much money. It should be one of the duties of an alderman, in addition to carrying on the ordinary business, to help put up a vigorous campaign for extension of the industrial activities of the city. With this in view I have in mind active propaganda along the following lines:

1. "I would urge that the city take active steps to try to induce the Canadian Pacific Railway to make its northern outlet at Prince Rupert.

"I would co-operate in every possible way with the Canadian National Railway in anything which would make for the progress of Prince Aivazoffs Held Rupert and particularly in connection with the proposed tourist hotel. with the suggested steamship line to the Orient and with the new efforts to make this a live distributing port.

3. "I would continue activities with a view to securing the Peace River outlet at Prince Rupert. As a delegate from the Prince Rupert Board of Trade to the Peace River and to the convention of the Canadian Chamber of Commerce, I have already been able to do something with the result that the claims of Prince Rupert are now generally recognized as just. Without spending a large amount of money this activity should be continued.

4. "I would co-operate with the Board of Trade with a view to securing the widest publicity for the city. It was at my suggestion the Board of Trade took up with the Power Corporation the possibility of securing a flour mill for this port and publicity along these lines should

Pool does not take more active steps to utilize the port.

"While these are not the ordinary activities of an alderman, it is my opinion that, at a time when the city is securing an abundant supply of power, when the C. N. R. is taking a renewed interest in the city and when the movement is on to build a railway westward from the Peace River, there is need of such a campaign here, so that advantage may be taken of the unique position the city occupies.

"I further believe that the city should continue to urge upon the provincial government the manifest duty of the province to complete the J. Y. Griffin, Mr. and Mrs. Harold Skeena River highway at as early a date as possible.

"In giving special prominence to the suggestion of city activity in relation to outside interests, I would not have the duty of the city neglected in regard to sewers, sidewalks and such other improvements as may be necessary. This work, however, must be subject to the ability

of the city to market its bonds. "I feel it would be in the interests of the city for the ratepayers to adopt the sewer bylaw and the McBride Street bylaw, most of the work A. Allan, Mr. and Mrs. Victor Cumon which has already been completed. If the bylaws are not adopted, the incoming council will be saddled with a large burden which will

cripple them very greatly in the business of the year. "I am opposed to the city proceeding with new public works until they Miss Dorothy Bowen, Miss Ruth have been voted upon by the ratepayers, as was done in these two cases. It is not fair to the ratepayers for the city council to do the work first

and then ask for endorsation afterwards.

"I believe in encouraging capital to come in and in treating local industries well, while at the same time protecting the interests of the city. "Workingmen should be paid reasonable wages and their interests looked after. Should it seem likely in the autumn that relief work will lostro This is likely to be the case in connection with the loss be necessary, careful plans should be laid so that any work done by the city should be along the lines of development and not solely for the pur-

## Boy Scouts Did Good Work This Year at Xmas

The Boy Scouts and Girl Guides In seconding the adoption of the of Prince Rupert are glad to have annual report of President Gonzales had the opportunity of doing their at the annual dinner meeting of the annual good turn.
