VANCOUVER UNEMPLOYED

(Vancouver Star)

Those of the unemployed who are determined to make trouble may rest assured that if they compel the police to resort to severe measures they will receive little sympathy from the public of this city.

Vancouver is doing its whole duty by the unemployed. It is providing them with the means of subsistence and exacting by way of return a certain amount of work, work there is no occasion to have done at all at this time.

Many of the men recognize that this is all that can reasonably be asked. Attempts to stir them up to refuse both work and recompense, have largely failed.

There are, however, a number of malcontents who apparently think they can intimidate the city into paying them four dollars a day—a larger amount than many of those receive whose taxes the money would ultimately come. These people were never more mistaken in their lives. Nobody invited them to come here and nobody here is under any obligation to do more for them than make the allowances customary to prevent absolute destitution.

The sooner they understand this the better and if, in making them understand it, the authorities have to take drastic action, it will be with the general approval of the public.

The Letter Box

Editor, Daily News.—We were pleased to read another letter from Bella Coola in The Daily News dated Jan. 20, refuting many of your statements in a sarcastic front page article of the News dated Dec. 26. As you seem to know so little concerning your neighboring district, I thought it might be well to acquaint you re some of our notable facts and features. Our geographical position has already been mentioned in your Daily News, also in an editorial in the Stewart News dated Jan. 3, which states: "The shortest route from Pouce Coupe in the Peace River district to tide-water on the Pacific is via Monkman or Gray Pass to Prince George, thence to Bella Coola." We may further add: This route is not only the shortest Peace River outlet, but it also affords the least engineering difficulties. As the Peace River district is destined to supply large quantities of wheat and other products to the world via a Pacific port, one of most essential considerations is the shortest and most economic route. Added to the claims of the shortest and most economic route, the Bella Coola valley contains the largest area of flat surface suitable and necessary for a terminal port of any other valley in B. C. north of the Fraser Valley. Another and not least important fact is that Bella Coola is situated on a line which is the shortest feasible route, say from England to the Orient. For instance, England, Hudson Bay, Edmonton, Bella Coola and the Aleutian Islands in the Pacific. Unquestionably such a route is the shortest that can be had. Any other would be full of kinks. Freight rates as we know are an important factor to the producer and consumer and who else is there? It's reasonable to say if a road is built on the shortest route in the first place, unnecessary millions will not have to be spent in the future cutting out kinks.

With respect to Bella Coola as a pass from the coast to Williams Lake, the fact that pack trains passed over this route during the summer of 1895, that was the first year Bella Coola was settled by our colony and before any work had been done on a trail through. Since that time the route has been passable for horses at set times of the year. Last year surveys were completed on the McKenzie highway, which at present extends fifty

miles inland and eighteen from Williams Lake westward. Cars have come one hundred and fifty miles, this leaves only a short gap which will be completed in the near future. Having lived in the Bella Coola Valley since 1894, I know the conditions and when this highway is completed the country will afford homes for thousands of people.
ALBERT HOMMER,
Hagensbury, B.C., Feb. 10, 1930.

(The article complained of was a Canadian Press article which came in the ordinary course of news and could not be tampered with in The Daily News office. It was not written in Prince Rupert.—Editor).

INTERIOR MINE DEAL

Washington Contractor Becomes Interested in Manson Creek Placer

A transaction of interest was completed this week whereby the control of the mining plant taken through Vanderhoof during 1926 by Geo. W. Otterson was transferred from R. C. McCorkell to G. H. Pomeroy, a large contractor of Washington State, says the Nechako Chronicle.

Mr. Otterson is acting as Mr. Pomeroy's superintendent, and will go in to Manson Creek just as quickly as Mr. McCorkell delivers the additional equipment and supplies required.

Mr. Otterson will remove the plant from the vicinity of Germanen Creek where it is now located to Manson Creek, and place same in operation. The plant was originally designed by Mr. Otterson to work particularly on the gravels on Manson Creek; the gold saving device being his own personal design.

The Kildare Company and 43 Company plants also owned by Mr. McCorkell were not included in this transaction, and will be united to form a complete hydraulic plant to work on his Germanen Creek leases. He is also preparing to install a saw mill on Germanen Creek.

Mr. McCorkell states that the Otterson plant being designed especially for work on Manson Creek was not as suitable as the hydraulic for work on Germanen Creek. Actual mining on both these well known gold bearing creeks this season can be expected.

Sport Chat

Big league baseball season 1930 will get under way on April 15 and close on September 28, official National and American League schedules which have just come to hand show. National League season openers will be: Boston at New York; Philadelphia at Brooklyn; Pittsburgh at Cincinnati; and Chicago at St. Louis. The opening of the National League will find St. Louis at Detroit; Cleveland at Chicago; Washington at Boston; and New York at Philadelphia.

Not a word has come through from California regarding the fight activities, if any, of Billy Townsend. Bill, it was said, was matched with Armand Santiago for January 28. That fight did not come off, probably because Frank Churchill, who directs the Filipino, would not let his boy go in against Billy's poundage as Santiago never makes more than 132. Charlie McArdie, who went south with Townsend under a two-year contract, signed jointly by Jack Townsend and his front man, McCranor, had a fight on the La Barba-Torres card. He is the only one of the Vancouver trouper to show in the south to date, as far as can be ascertained.

LIONS WIN OVER CUBS

Scored Shutout Last Night to Re-deem Themselves For Last Friday's Loss

VANCOUVER, Feb. 11.—After dropping a 4-3 decision to the Victoria Cubs last Friday, Vancouver Lions showed a reversal of form and blanked those same Cubs by a score of 5-0 last night.

The Lions, as a result of the victory, climbed to within one point of the league-leading Portland Buckaroos.

NEWS!
AN ALERT newsboy, on a day when news was dull and sales were few, turned to the advertising pages for inspiration.
"Read about the big reduction sale," he shouted. "Fine quality tea sets at \$3.50 and \$4. Fancy china-ware sacrificed."
His stock of papers was sold out very quickly.
The case is, of course, exceptional. But it points to the fact that advertising is news—and important news. It is the news of daily life, the news that comes closest to you and those about you. It is news of the furniture you sit in, the books you read, the bonds you buy, the automobile you use, the flashlight, talking machine and food product that give you satisfaction. News that concerns you more vitally than anything else you read. News that is essential to you, because whether you purchase a piano or a pin, you want the best your money can buy.
—and you can always be sure you are getting the newest and best when you read the advertisements.
The advertisements contain pocketbook news—and that's important!
If you want anything, try a classified ad.
