### WHEAT SITUATION

The wheat situation continues to attract attention because of the continued low price and the necessity for the people of Canada to adapt themselves to the situation.

began to survey the new international situation recently: Italy—Taking the lead in an European movement for independence of imports, by expanding home acreage, and by imposing very high duties against imported wheat.

Germany—Turning back from wheat to rye. Steadily increasing duties against imported wheat, and restrictive tions will spread the message to regulations against its use. Exports of wheat subsidized. France-Self sufficient this year in wheat. Imports

practically embargoed. Exports subsidized.

Great Britain-Projects for government entry into airport to greet the monster dirigrain business seriously considered. Concurrent agitation gible. on behalf of consumers to bring down the price of bread, and on behalf of the farmers to increase domestic prices and production.

Spain, Portugal, Switzerland and Roumania-All in-for a nation-wide broadcast of the creasing tariffs against imports, and trying to develop story of her journey and her arrihome acreage.

Russia-Plans for the remaking of agriculture.

United States-Government intervention in markets on largest scale ever known.

Australia-Plans for government fixed prices on wheat of arranging such a project. The

and government intervention in marketing. Argentina-Negotiating a treaty with Canada's best

customer, Great Britain, for supplies of wheat.

Brazil-Planning to turn surplus coffee acreage into wheat.
