### Prairie Grain Yield This Year As Rain Halts Threshing Work

WINNIPEG, Oct. 10:-Serious decreases in the wheat yield of Western Canada are foreseen as a possible result of continued wet weather which has halted threshing in some sections. Intermittent rains in Northern Saskatchewan and Alberta, where crops were heavy, halted operations and wheat sprouting has prevented threshing in nany cases. It is undoubtedly true

that millions of bushels will be cut CELEGRADI V IC from the estimated prairie yields by the wet spell.

#### Proclamation

Next week has been set aside all over the Dominion as "Prosperity Week."

I am appealing to all citizens of Prince Rupert to do their bit to make this event an epoch in the history of this city. We are fortunate in having had a prosperous year and in order to keep prosperity in our midst and to have everyone sharing it I suggest that we make it a point to buy at home and to spend whatever money we can in various ways to keep the money in circulation.

A big effort should be made to show that Prince Rupert is always leading in everything. I do hope that a feeling of optimism and enthusiasm will pervade the whole town, next week, and that henceforth every man, woman and child will be sold body and soul to the idea that Prince Rupert has really the best prospect for the future of any city in the Dominion.

Metropolitan Papers Not So Harsh In Treatment of Premier Bennett-Times Is Favorable

LONDON, Oct. 10:-The London metropolitan papers are not quite so distrustful of Premier Bennett's proposais at the Imperial Conference as are some of the Liberal and Labor publications. Considerable importance is attached in the city to suggestion of Mr. Benentt that entities within the Empire increase their tariffs on goods imported from non-British nations. London papers lean more or less towards such a preferential system and, as a consequence, few were very critical in their editorial treatment.

The Times described the plenary session at which Premier Bennett advanced his proposals as "an outstanding political event and, probably, the turning point in Imperial development." adding that "the country will insist that the proposals be examined thoroughly."
