FEAR IS THE ENEMY

The only thing to be feared in this world is fear. It clogs tenth of the money would have will be closely watched in relation the arteries, saps the vitality and causes men and women to live lives of deceit. Fear is the father of lies, the mother insertion in your popular paper. of false invention, the sister of base actions and the brother of most criminal offenses.

Fear of what people will think causes over expenditures which lead to future trouble.

And after all, the things we fear are usually bogies that have no real existence in fact.

A dollar a day would be riches if two bits was the average salary.

WHAT SHALL WE DO?

There will be practically no city work this year. There ill afford to send even an under- build five new branch lines, one in is no money with which to do it just now so, whether the city council is willing or not, does not matter. The con- prove useless at any time, as the dition is one that must be faced.

But what will take the place of the city work which has require at least a decent sized dele- to be heard when the Comittee act been carried on for years here? Let us look at the situa- gation, well prepared and compostion fairly and squarely, for undoubtedly we shall miss ed of the best material Prince Ru- ate spent much time with the bill,1 the work which a good many local men have depended on pert can muster, to properly prein the past.

In the first place there is road work. The Provincial Government, seeing the possibility of an election in this constituency soon, has decided to push forward work on the highway and many men will be employed. Already a survey party is going out to get the levels and lay out the work.

Then there is the construction work of the Power Corporation hydro-electric plant at the Ecstall River, construction of the power house in the city and the work on the right of way for the high tension lines. This will employ many men.

The drydock has work enough n sight to keep it busy for many months and it will employ more men than have been engaged there steadily for years past.

The Bilmor mill probably will be opening in the spring at Porpoise Harbor. This will employ a pretty good gang in addition to the men in the woods.

The Big Bay Lumber Mill at Seal Cove is in a position to employ more men than ever before.

There is likely to be considerable building in the city age halibut in the U.S.A. and all sorts of things are talked about but these mentioned will make enough employment to keep all local men cuse to spend this sum of money busy. We do not advise men to come here from outside because local men will generally get the preference.

Then there are the disreputable and the bums. Life would lose much of its picturesqueness if all belonged to the same group.

POSSIBLE BUYER (hazy on m ythology): "Well, but DID them ginks wear plus fours?"

OBJECTION TO SENDING DELE-GATE TO OTTAWA

Editor Daily News:

I see by the press that our City Council have voted five hundred dollars to send a delegate to Ot-;

dollars would be far better spent So many changes have come about Speaker when parliament opens.

at Ottawa and to send a delegate government, will insert the rates of mieux, the standing of the parties in addition at the city's expense, duties to be applied to the various as last session will be: Liberals 119,

> ed by public subscription, and I pertant differences in the protecbeen raised.

Thanking you in anticipation of R. F. PERRY. 1008 2nd Avenue

Editor Daily News:

It was with much surprise that I read in your paper yesterday of the City Council's rush decision to send a delegation to Ottawa in connection with our Peace Outlet claims, especially in view of the fact that nothing can be gained at the present time in so-doing, and it be ready. The Canadian Pacific also at a time when the city can sized delegation, which would Alberta, three in Saskatchewan and Peace Outlet is a big question, and correct, intelligent and precise manner.

is reduced by some ten men, this greater co-operation between present time Prince Rupertites are gulating stock trading.. all more or less living upon each other, and one cannot be affected their early catches, and whether ed in the house this session. they are going behind or have a The Conservatives will likely \$\$

There needs to be a better exthan that it is necessary to let the Peace District residents know that we are with them. Why that is an affront to their intellect to put that plea, as Prince Rupert has constantly for a very long period in that respect. What about the delegation we sent there last summer? what about the many Peace River-Pacific Outlet publications we have broadcasted, and the articles that have appeared in the press from time to time all over

66 Y DEAR, I simply dread this daily shop-JVI ping" How many times have you heard that story? More than once, we'll bet a hat. And if you ask the woman who "dreads shopping" just why she does so, you'll usually hear something like this:

"I takes so much time! I start out and look and look and look . . . and by the time I've found what I want I'm dead on my feet. All in, my dear. I mean I actually am!"

You can do a friend like that a real service. Ask her if she reads The Daily News grocery advertisements. Usually she'll look surprised and say, "Not very often. What has that to do with it?"

Tell her how you have your mind all made up before you hang the market basket over your arm . . . · how you're able to save steps, budget your expenditures neatly, get what you want-and all with a minimum of time and effort. Simply because you have the news of the shopping world at your finger-tips all the time, by reading the advertisements every day.

Advertisements Are News. Vital, Practical News. News You Need to Keep on Tap. Read the Advertisements Every Day!
