New Impost Decided Upon By Margin of One Vote; Rough Lumber From Canada May Still Go Across Line

WASHINGTON, March 21.—By a margin of one vote, the Senate yesterday placed a tariff of \$1.50 per thousand board feet on softwood lumber which is now on the free list. The duty would apply to the lumber of fir, spruce, pine, hemlock and larch as well as on railroad ties and telephone poles of all woods. This was a reciprocal step as Canada permits such United States lumber to enter Canada free.

Salaries of Radio Entertainers Drop

Are Now But Slightly Above Those of Stage Performers

SAN FRANCISCO, March 21.—Salaries for radio entertainers are sliding down the scale on the Pacific coast. They are now only slightly above the stage.

Crooning blues singers, once unusually popular on the air, have felt the slash more than other artists. They are being put on weekly salaries netting much less than when on an appearance on a program basis.

Guest artists have felt the effect of retrenchment with a downward trend in payment for a single performance. The pay, however, is higher than the stage. Musicians in radio studios and theatre pits receive equal pay.

In the next general election, however, he lost his seat and, not seeking another, dropped out of the cabinet. The Liberals did not vote, Rt. Hon. David Lloyd-George, their leader, announcing that they had decided to take no further part in moving or supporting amendments in the committee stage of the Coal Bill. The reason he gave was that action of a hostile character by the Liberals at this time would affect critically the state of the naval conference.

VICTORIA, March 21.—Every person consuming fuel oil in British Columbia, no matter how small the quantity, must make a return to the government showing the amount he has consumed. The government will then tax the consumer direct at a rate of half a cent per gallon in a manner similar to the collection of the income tax. Such was the announcement in the legislature yesterday of Hon. W. C. Shelly, minister of finance, in introducing the new fuel oil tax. Liberals have intimated that they will vigorously oppose the passage of the measure.

The "Prince Robert" is the third of the three vessels designed for service on the British Columbia coast and is the eighth vessel built for the Canadian National Steamships at the yards of Cammell Laird & Co. Two vessels previously launched, Prince Henry and Prince David, are now being fitted and will be in commission for the coming tourist season.

The coins are legal tender on the island. On one side appears a bust of the owner of the island. On the other is the head of a puffin, a sea-bird which is native to the island.

W. H. M. Johnston of Vancouver, industrial agent of the Canadian National Railways, sailed by the "Prince George" last night on his return south after having made the round trip north on the vessel.
