New Company Takes Over Silver Cup; Big Operations Near Usk Planned; Columario to Be Active Again

The Silver Cup mine at Hazelton, it is reported, will be taken over by a new company to be known as the Omineca Mining and Milling Co., which is about to be incorporated. It is the reported intention of the company to first develop a quantity of ore, after which milling would be resumed in the plant which was established during the past year by the old company. Holders of shares in the old company, it is said, will be table to take out shares in the new. Alwin

The sum of \$35,000 has been placed in the bank to be used this summer in prospecting the holdings of the company. As soon as possible a number of men will started on the Toulon group, where considerable work has already been done. A cross-cut, which, it is expected, will take till about July 1, will be run, and then it is proposed to place a diamond drill on the broperty and thoroughly prospect it for big tonnage. The Toulon is one of the oldest properties on the Skeena River and contains chiefly copper with gold and silver values. It is low grade but with high grade lenses occurring at intervals.
