Goldbloom Is Going South to Buy New Coats

Local Merchant to Meet One of Big Fur Manufacturers and Will Bring Home Latest

Goldbloom, the old reliable local fur merchant, is leaving Sunday for Vancouver where he will meet one of the big fur manufacturers of the east and will make a selection of new coats for the fall and winter trade. He will buy a large quantity and will consequently get the lowest possible prices.

Mr. Goldbloom will be glad to discuss the question of purchases with any local ladies who wish something different. He will be in a position to make selections of the very latest styles of make and will be sure to secure the best possible quality. Talk it over with him before he goes, even if you do not buy. By making purchases this way, Mr. Goldbloom says Vancouver prices can be beaten a mile.—Advt.

SHOPPING QUESTION

Now Is the Time to Buy Coal As Well as Other Commodities, Says Local Dealer

"At this time of the year, between the holidays, it is the custom of many people to look around for bargains and buy supplies for winter," says M. P. McCaffery of Albert & McCaffery in a talk on the coal situation. "Now is the time that many people look over goods while the best is being shown and secure their supplies.

"We would like the people of Prince Rupert to visit our coal yard and inspect the goods we have to offer, particularly our choice Nanaimo-Wellington coal and our popular Lakeside (Alberta) coal, in all sizes including stove and lump.

"We would like the public to remember that we are prepared to give a discount to those who buy their coal from us while the weather is dry and in reasonable amounts. We will be glad to have you visit our yard."—Advt. (225)

An Easy, Quick Get-Away

It's a hectic job getting daddy off to work and the children off to school with a nourishing breakfast. Everything is calm and placid when Shredded Wheat is served. It's ready-cooked, ready-to-eat. Heat the biscuits in the oven a few moments to restore their crispness, then pour milk over them. They contain all the energy-giving elements of the whole wheat grain—and are so palatable and easy to digest. Delicious with fruit.

Energy—just brimming over with energy! Only proper feeding can do this for babies. And Nestlé's Evaporated Milk *is* the proper food.

And here's the Reason! Nestlé's Evaporated Milk is just the best of fresh cow's milk with part of the water removed—then sealed and sterilized in air-tight containers. Add water again and you have absolutely pure, safe milk—but more readily digestible than ordinary milk because the large fat globules of the milk have been broken up into small ones of the same size as in Mother's milk. Also, the curds which form in the stomach when Nestlé's Evaporated Milk is used are soft and flaky and therefore easily digestible.

Use Nestlé's Evaporated Milk for Your Baby. Use it in coffee—in cocoa—in tea. Use it in all cooking and as a beverage by diluting with one to two parts water.

Old! . . . the hand plow is out of date. It is old just like the old time heavy, hard as-iron boots. *Blutips*, the very latest in work boots are modern and provide what was, a few years ago, unthought of foot comfort. They are soft and pliable, far superior to ordinary work shoes.
