GET BEHIND THE BUTTON AND BUY VICTORY BONDS

Prince Rupert is doing well; Subscribers all Asked to wear their Emblem during Remainder of Week

Prince Rupert has already about reached the objective of \$175,000 in the Victory Loan drive. Saturday night the returns showed \$165,750. The city is doing well, and there is already a good deal of canvassing to be done and it is expected that the quarter of a million dollars will be reached before the end of the final week.

L. K. Makovski who was here at the week end from the Vancouver office made a special request that every purchaser of the special Victory Loan button. This button is given to the bond buyer and for this week only it should be displayed.

Mr. Makovski in an interview Saturday said that it was absolutely necessary to complete the financing of the war by re-employing the soldiers and spending money in various ways until conditions became normal. This was essentially a war loan and would be the last. He looked for over a quarter of a million from Prince Rupert.

This week sees the windup of the drive. The local canvassers are out in good time today and are meeting with a good deal of success. In most cases it has been unnecessary to even ask for money. People had already bought it out and decided how many bonds they could take. It is simply a matter of filling in the application and writing a check.

ARE OPPOSING TREATY WITH THIS COUNTRY

Alaskan and Seattle Interests Fear Competition of This Port.

WASHINGTON, Nov. 10.—Because Prince Rupert may benefit therefrom, Alaska and Seattle fishing interests are opposing the reciprocal treaty with Canada which is now awaiting final ratification.

The treaty grants Canadian fishing vessels the same rights in American ports that are granted to American vessels and equal rights to American vessels in Canadian ports, in a measure removing some of the objections which American interests have made to present conditions.

Also the treaty provides for the abrogation by Canada of the present Canadian tariff of one cent a pound on halibut, the United States having no such tariff.

Stringent regulation for preservation of halibut in the North Pacific, by establishing closed seasons and other measures are features of the treaty. These regulations are reported to be those recommended and discussed before the joint international conference which considered the subject on the Pacific Coast.

The text of the treaty having been approved by the Canadian and American commissioners, it now only awaits formal signature before being sent to the Senate for ratification.

Sir Douglas Hazen of Canada, one of the negotiators, has been designated to sign for the British Government. As soon as President Wilson is well enough to sign an order designating Secretary Lansing to sign for the United States a date will be set for signing and Sir Douglas will come here for the purpose.

The only objection now to the signing is the opposition of the American fishing interests which fear the competition of this port.

CELEBRATE ARMISTICE DAY BY REACHING QUOTA FOR PROVINCE

Tomorrow is "Armistice Day" and the British Columbia committee is very anxious to have the province of British Columbia reach its quota of \$17,147,800 on that day. It would be a fitting method by which to celebrate the anniversary of the successful close of the greatest struggle in history.

District returns show that while the gross returns this year are almost as large as for last year at the same time, the number of purchases of bonds is much smaller, in fact less than half the number of last year.

The patriotic appeal is not used this year as it was last. People purchase bonds mostly because they want a good investment. But there is also a duty to the state to perform. Money is needed and only by individual lending can the affairs of the country be carried on.

FEW FISH BOATS DURING WEEK

Drop in Quantity of Fish Marketed Followed Drop in Price.

The fish arrivals and shipments were very light last week. In fact it was the smallest week for many months. It is expected that there will be more boats in this week especially as the price is going up again.

Following are the arrivals and sales at yesterday's Fish Exchange:

Agnis B., 41,000; Viola, 3,000; Nidaros, 6,000; Nornen, 2,000. These boats sold to the Canadian Fish and Cold Storage Co. at 18.5c and 13.5c.

The Senator sold 30,000 lbs. to the National Fisheries at 18.5c and 13.5c.

FILIPINO KID GOES UP FOR SIX MONTHS

Had Become General Nuisance to Police, so Goes to Jail.

J. Villamore, the Filipino Kid, drew the maximum penalty in the police court this morning for vagrancy. He was given six months at Okalla Farm by Magistrate McMordie. Villamore has been a general nuisance in the city and has been ordered out of town on various occasions. He had also served various terms in jail here and had been found guilty of theft once.

He was noticed around town on Friday last and was arrested in a shack which he and two Chinamen had taken possession of. Articles that are prohibited by law were found on the premises and it was decided that the only way to get rid of the Kid was to give him a good stiff jail sentence, so he received the maximum.

'KING GEORGE' SINKS NEAR JAP POINT

Captain and Crew Tramp Beach for Sixteen Miles to Metlakatla.

The big gas boat King George was wrecked off Jap Point on Saturday morning. She had been running all the night before in the heavy wind and snow storm and was returning from Alice Arm to Prince Rupert. Her crew had been working in the mines at Alice Arm and were coming south for the winter. While at that place her storage batteries had become pretty well drained and she had been experiencing difficulty going all the way south.

About 10 o'clock on Saturday morning the craft struck a snag or submerged log and began to ship water fifteen minutes later. The boat was immediately headed for shore and just before reaching the Jap Point buoy she sank in shallow water over the rocks. The crew immediately took to the row boats and got to shore, saving only their blankets.

Attempt to Row.

Shortly after this they attempted to row the rest of the way to Metlakatla, but found that it was almost impossible to buck the heavy southeastern gale. They went ashore again and walked along the shore line, a distance of 16 miles. They reached the Indian village late in the afternoon, wet, tired and disgusted. Fortunately, Frank M. Davis was over with his gas boat the Mayflower and brought the men to town although he had not intended coming back till the next morning. They arrived in Rupert after 11 o'clock on Saturday night.

The King George was a large boat, 40 feet long. At one time she was engaged in fishing, but has been used for other purposes lately. She is now submerged in shallow water and it is believed that she can be successfully raised. Fred Miller, a well known waterfront man, was her captain.
