

WHAT ARE PEPS? READ HOW THEY ACT

The best protection for the throat, chest and lungs is contained in a handy box of Peps.

As Peps tablets are dissolved in the mouth, powerful medicinal fumes are carried with the breath straight through the air passages into the lungs, where liquid medicine cannot reach.

The throat and lungs are always more sensitive in cold weather. Peps will strengthen them. Therefore, keep Peps handy wherever you are, and occasionally dissolve a tablet in your mouth. You never know what infection of colds, "la grippe" and even lung trouble may be carried about by people with whom you come in contact.

Because of their direct action, Peps give almost immediate relief to the chronic bronchitis sufferer, and provide young and old with a safe defence against Coughs, Colds, Sore Throat, Laryngitis and Pneumonia.

FREE TRIAL: Send this advertisement and 1c. stamp (for return postage) to Peps Co., Toronto, and free trial package will be sent you.

'WAR CHARIOT' ARRIVES TO LOAD LUMBER

Will Take 1,000,000 feet of Aeroplane Spruce From This Port to United Kingdom.

Yesterday afternoon the big steamer War Chariot arrived and tied up at the G. T. P. lumber wharf where she at once commenced to load aeroplane spruce. She will be here about four days if the weather is good and then will return to Vancouver before sailing for the United Kingdom for orders.

The War Chariot is the second of the big government steamships to come here for lumber. The first was the War Company, this boat being an exact duplicate of the other. She is an 8,800-ton vessel, built by John Coughlan & Sons at Vancouver, and is slightly longer than the vessels being built here by the Prince Rupert Drydock & Engineering Co. She is being operated by the Monarch S. S. Co. of Glasgow and is now being painted with the Monarch colors.

On her trial trip the vessel made slightly over 12 knots, the average contract speed being eleven and a half knots. While everything aboard is new and has to be adjusted just as with all new vessels, the War Chariot made a successful run north and the officers expect she will make the U. K. in sixty days from Vancouver. The only part of the vessel they condemn wholeheartedly is the American windlass which they characterize as "no good."

The Cargo.

The War Chariot already has taken on nearly 2,000,000 feet of lumber at Vancouver, 900,000 feet at Chemainus and she will load approximately 1,000,000 feet here. If there is any space left she will complete her cargo at Vancouver.

The officers on the steamer were sent out from Glasgow recently to take charge of her and they are nearly all Glasgow men. Captain Dalziel is in charge, with Mr. Joss as first officer.

The War Chariot was brought north by Capt. Barney Johnson, a former resident of this city and the hero of the North Sea submarine service, who is taking advantage of the stay in town to renew old acquaintances.

SMITHERS

The work on the new town hall here is going on apace. Although the weather is rather cold for outside work the carpenters are making good progress and the building should be finished in the course of three weeks. It is a large structure and will fill a need. The crush in the Telkwa Hall at the last Barbecue dance was a fair example of how badly some large hall is needed in the district.

The oil house in the railway yards was consumed by fire last week. It is a fortunate thing that the fire confined itself to the oil house and did not catch the adjoining tank.

In a fire that lasted about ten minutes the G. T. P. car repairers' cabin was completely destroyed last Saturday. The house was steeped in oil so its destruction was quick and effective. The fire was confined to the cabin, although the coal shed got a scorching. One of the engines from the yards finally put the fire out by playing streams of water on the flames.

After working all summer putting roads and trails three of the government crews have broken up on account of the cold weather. The men from Burns Lake, Hudson Bay Mountain and the Harvey property roads have all come into town for the winter.

Wm. Boyer has bought out the entire transfer business of Thos. Herlihy who has built the outfit up from a little team of black horses to one of the biggest businesses of its kind in the interior.

W. S. Henry, agent for Ford cars in Smithers, commenced the building of a large warehouse and storeroom here on Monday last. The order for 1920 models for the local agency amounts to two cars.

Mrs. E. E. Orchard has recovered from an operation she recently underwent in Vancouver and is expected home soon.
