

JOY AHEAD! without a worry-how it pays

DEFORE a happy evening, take a D bath with Lifebuoy Soap. Millions, the world over, do that to be safe.

Body odours destroy many a romance, and wipe out the choicest charms. Yet Lifebuoy offers everybody absolute protection for six hours at least.

Sweetness is not a mere matter of cleanliness. Bad odours come from rancid oils, deep in the pores. Every drop of perspiration brings them out.

But Lifebuoy, with its safety factor, corrects that situation. Its antiseptic lather goes deep. For at least six hours after you use it, you have no worry about odours.

The Safety Scent

Lifebuoy leaves a little scent—a safety scent. But it disappears at once. It lingers only long enough to say, "Joy to your evening; you are safe." Then there remains just the odour of the clean. And safety for at least six hours.

All the world over, at every sunrise and sundown, millions of happy people guard their charm with Lifebuoy.

It Fights Germs

Lifebuoy is a soap for the toilet and bath. The basis is two palm oils. It is a soap as exquisite as the largest soap-makers in the world know how to give you. But we add a germicide because you need it in a soap more than any other

Your hands touch many things, and every touch brings germs. Life Extension Institute lists 27 diseases which may be conveyed by hands. Perhaps half the colds, for instance, are conveyed by imprints of a hand that checked a sneeze. Think of that when you touch biscuits, fruit, candy, etc. In protection to you and yours, wash your hands in Lifebuoy lather before you touch a food. Otherwise, every finger-print on anything eatable is a nest of germs.

First Cake Free

We offer the first cake of Lifebuoy freeonly one to a family. Just to let this matchless soap argue for itself. Ask us for this free cake. Cut out the reminder so you won't forget. Do it now.
