FROM MOTHER OF EIGHTEEN

Read How This Medicine Helps Her

Cardston, Alberta—"I am fifty-eight years old and the mother of eighteen living children. We live on a farm and I am a very healthy mother considering that I have such a big family to work for. The druggist first told me about Lydia E. Pinkham's Vegetable Compound and I have depended on it for many years. When I had this picture taken, the photographer was telling me about his wife's ailments and after I told him about the Vegetable Compound he went to the drug store and bought her two bottles."—Mrs. BERTHA SALLESBACH, Sr., Cardston, Alberta.

Raised On Pacific Milk

"My little girl was born in a logging camp and raised on Pacific Milk alone." This is from one of the letters recently received. "The way she thrived on the milk was tribute enough to its high qualities as a perfect food. She was the best-natured baby, cut her teeth without any trouble and was everything that a healthy, normal baby should be."
