peal to Rupert East United Church Congregation to Strengthen Itself

Services in Rupert East United Church were resumed for the winter last evening by the pastor, Rev. Charles E. Motte, who delivered a stirring sermon, taking as his subject "The Parable of the Pounds." He declared that the churches had been organize to give effect to the Lord's teaching in this parable.

Reviewing the work of the United Church of Canada at home and abroad, Mr. Motte declare that missionaries, doctors and nurses in the service of the church were today carrying on work at 4369 stations in Canada and at 986 stations in Africa, India, China, Korea and Trinidad. One million boys and girls were receiving religious training in Sunday Schools. Rescue homes were being operated at Vancouver, treal and in the Maritimes.

The field for the church's work. Mr. Motte pointed out, was the world but he laid emphasis on Christ's commission to begin in Jerusalem. The origin of the home base in church work was of utmost importance and all depended upon Vancouver and the south, by way numbers, might be likened to Jeru- and Vanderhoof. The sermon was well received.

WATER STOPPAGE

There was a one-day stoppage at the week-end of the water supply to the Canadian National Railways logged pipes. Repairs, however, have now been made and the water s being pumped normally out of the Fraser River again.

Caused by Blood pressure

"Five years ago this month I had a serious attack of blood pressure, and my medical man ordered me to take Kruschen Salts daily. Evidently am a stubborn subject, because I use every morning a small teaspoonful and a half in a glass of hot water, and this acts splendidly and keeps my head right. If I don't have the action. mentioned, I feel cold, stupid and liable to fall from dizziness. Therefore I can't do without my Kruschen on any account. Some time ago tried some other salts which were cheaper, but they pained me so much that I had to stop them. There is no pain with Kruschen. I have told hundreds of my little wonder-working

bottle."—(E. C. Fergusson.) Dizziness is a symptom of a deeperseated disorder. It is one of Nature's danger signals-her urgent warning of an impure blood-stream which, if not attended to in time, may wreck the entire health with some dangerous, indeed lifelong, disease. The six salts in Kruschen keep the blood-stream pure and vigorous by ensuring the complete elimination of poisonous waste matter from the system every

the coming winter and made a shall renounce this heritage of the pill, that fills the bill." he sliding banks and the snows of lish servant girl.

grain trade from a railway. It can at 7.30. market meats and dairy products; MIX FOR CONSTIPATION but our prospective home market GOLD VALUES Simple glycerin, buckthorn bark, will promote the speedy, and, we hope, the enjoyable, movement of through this district, with resulting nutual human benefits.

With this in view, the slightly greater mileage by the Peace Pass constitutes an asset, since each mile of the way has scenic or development value. It is misleading, however, to regard the entire route from a feature of development work this Fort St. John through Hudson Hope, where settlement is almost continuous, as added to the highopen with little help for many years by the settlers, must in all fairness be re-located and reconditioned in any case. This is also true of the road now passable to Jim Beattie's at Gold Bar. An actual and holds every promise of carry- Miss Mabel Franks, who has gap to link it with Finlay Forks is thus reduced to 70 miles.

The 65 miles stated as the distance from Palmer's Crossing Pine Pass to Davie Lake is quite erconeous, and is surely a mis-quotation. Authentic maps give an airline was Busy Booth nearly twice this, and a land route was Busy Booth at least 165.

The ripened judgment of our older men supports us. Neil Gething, well known both here and through the province, says: "The Pine is only a creek compared with the Peace, and is in the grip of heavy snow to June. Peace River Pass, with its low grade and freedom from deep snow is the cheapest and best route for a highway. The canyon, with its dinosaur and forest fossils, and great coal seams, is one of B. C.'s greatest tourist at-

It is deeply felt, that with pressing settlement needs, with the roads which railway building may necessitate in the northwest of the district and towards Moberly Lake, the Peace River Highway should be aligned with our progress as to be Port Clements least expensive and most valuable through the years. One route only will satisfy this demand, the Peace River Pass. What if some of us should sometime reach the sea to the west instead of south? Then the queens when they have a retinue of cities and towns in the north. Fort St. Pohn, B.C.
