

The Young Man's Opportunity

"If you want to know if you are a success, ask yourself this question—'Can you save money?' If you can, you are a success. If you can't, drop out."

That's plain talk, but it's true.

That's something for the young man of Canada to think over. If you are not saving money—you are not getting anywhere.

You are lifting your feet and putting them down on the same spot day after day, marking time.

No man ever succeeded that way.

Take a grip on yourself and cut out those careless, useless expenditures you make day after day.

Victory Bonds are your opportunity.

Buy a "big block" of Victory Bonds.

Buy them on easy terms -- under the instalment plan.

Grit your teeth—and pay for them! You can do it.

And think what this money saved may mean to you later in life. It may mean an interest in some business; it may mean the making of a home. It will mean that you can avail yourself of some investment opportunity that will ensure your financial or business success. The possession of some "ready money" has often been the foundation of a fortune.

Begin saving to-day.
