

Aunt Nellie's Way

It was Aunt Nellie who first suggested feeding "The Terrible Three" with Nestlé's Evaporated Milk. No longer are they nervous and irritable. Regular, romping rascals now!

And here's the Reason! Nestlé's Evaporated Milk is just the best of fresh cow's milk with part of the water removed-then sealed and sterilized in air-tight containers. Add water again and you have absolutely pure, safe milk-but more readily digestible than ordinary milk because the large fat globules of the milk have been broken up into small ones of the same size as in Mother's milk. Also, the curds which form in the stomach when Nestle's Evaporated Milk is used are soft and flaky and therefore easily digestible.

Use Nestle's Evaporated Milk for Your Baby. Use it in coffee-in cocoa-in tea. Use it in all cooking and as a beverage by diluting with one to two parts
