FLY ON THE WHEEL

Most people remember the fable written by Aesop which tells of the fly sitting on the wheel of the chariot which thought it was the motive power that made the of price disputes. chariot go. So today we find many people who think the world would not revolve if anything should happen to them.

Usually when some event happens which benefits the city there are a dozen claimants for the honor of having brought it about and often those who get the credit are not those who did the real work.

There are often amusing instances of the fly on the wheel of the chariot, but the fly is swept off and the chariot goes on and few people ever knew the fly was there.

IS POOL LOSING:

What many people are wondering today is whether the Wheat Pool is losing out in its effort to stem the falling market. For some time they seemed to be successful but today the prices are down and there is still a great the best class of fishermen and the They were favorable to some and to the Yukon Territory, where the ville Courier-Journal. deal of wheat in the Canadian elevator bins.

The Pool reports that it has made regular sales of ones whom we are most desirous of He had not yet come to a decision. wheat each month and that will be some protection but if it has to sell the bulk of its holdings at present prices there will be murmurs of discontent from the farmers. in cutting the gill nets on the was the duty of the Dominion to There is also a possibility of the price going lower than it is today.

If you have nothing to give but advice, join the proletariat and become a leader of men.

Full Speed Ahead Soon

Many people do not realize that the Northern Power Company, a subsidiary of the Power Corporation of Canada, is really constructing a large hydro-electric plant to serve the city of Prince Rupert and adjoining territory. The site for the plant is being prepared and the right-of-way for the high-power lines connecting Big Falls on the Ecstall River with the city is being cleared and that during September next it is expected to turn on the power from the first unit.

What does this mean to Prince Rupert? It means that the largest power corporation of Canada has faith in the future of the city and district and already sees a market for its product.

Under the impetus of the new movement, Prince Rupert will grow. Industries will be developed and all will feel the benefit.

Prince Rupert people must prepare for the change. New buildings will be necessary. If there are no vacant houses in the city today, what will be the condition when people begin to come in?

The Daily News is alive to the situation and is laying its plans. Others must do the same if they are to keep pace with the new Prince Rupert.

MENT WERE DISCUSSED

(Continued from page one)

week. The only way we can get that is by keeping the total gear in any area below that set by the Dominion Government. The Provincial regulations take care of that by not permitting the canneries to fish more gear than the allotment. If more 3.00 fishing per week.

"I am told that these regulations to sell their fish anywhere. .25 aroused certain fears in the minds .02 for five years will limit their martherefore limit the price at which

Buying Guide

FORE you order dinner at a restaurant, you consult the bill-of-fare. Before you take a long trip by motor-car, you pore over road maps. Before you start out on a shopping trip, you should consult the advertisements in this paper. For the same reasons!

The advertising columns are a buying guide to you in the purchase of everything you need-including amusements! A guide that saves your time and conserves your energy; that saves useless steps and guards against false ones; that puts the s-t-r-e-t-c-h in family budgets.

The advertisements in this paper are so interesting, it is difficult to see how anyone could overlook them . . . fail to profit by them. Just check with yourself and be sure that you are reading the advertisements regularly—the big ones and the little ones. It is time well spent . . . always.

For example, read the grocery store "ads" this week.

Avoid time-wasting, money-wasting, detours on the road to Merchandise value. Read the advertising "road maps."
