And How You Will How

PARAMOUNT

SOUND NEWS

OES your estate amount to ten times your income?

If so you have made unusually good provision for the future. You have assured yourself and family of an income equal to one-half your present earnings.

Suppose, for example, that you earn \$3,000 a year . . . and your estate is ten times that, or \$30,000. This total at five per cent. interest will yield \$1,500 a year. Sufficient, perhaps, to make it possible for you to live independently

in your old age. Sufficient,

too, to enable your wife and

family to "carry on" if they are left alone.

If your estate does not measure up to this standard, the simplest and quickest way of bringing it up to requirements is through Life Insurance. Millions of people have built estates "on the installment plan" with the aid of Life Insurance. And in so doing they have safeguarded the future for themselves and those whom they hold most dear.

Ask your Life Insurance Representative to explain to you the many advantages of an estate founded on Life Insurance.

## Taku River to Open on May 1

Ice Expected to Go Out By That Date or Thereabouts

Word was received here yesterday that navigation on the Taku River would probably open May 1, and Prince Rupert people may count on getting goods through on or about that date.

So far some thirty prospectors have gone into the country over the ice and there are sixty at Juneau awaiting transportation.

Mrs. F. A. Roberts sailed on the Princess Norah yesterday afternoon for a trip to Vancouver.
