DAILY EDITION

BEGINNING RIGHT

The new year is now well under way and it is very important that we all begin it right. New Year resolutions of assuring that Wade in particular are not usually much good, but there are times when new plans and policies have to be adopted and this is a rather asleep. Bateman, known as "Pongo," good time to make the change.

One of the important things in life is to clean up as we go along. That is something that every successful businessman remembers. He must keep his business up to date, have his desk clean every evening with all documents filed, letters written and correspondence answered. Any spairingly. house that is lax about such things is headed for a re- gone off any too well. The alarm But he looked at him rather champion boxes almost daily. He ceivership. So in every other walk of life. Today's work clocks, on the other hand, had curiously. He had had no idea is a physical instructor at a hotel today should be the rule, even to the payment of accounts. Collect regularly, pay regularly, make up the books regu- that could hardly have been surlarly and there is hope for success.

Even women can learn a lesson from the time of year. Regularity in the carrying out of household duties is just as essential to success as is regularity in the office or door, what must it have been at "It's odd. isn't it, why farce warehouse.

Resolutions will not put things right. It is actions that count. Words do not mean very much, except in a libel suit.

LEAVING FOR SOUTH

Mr. and Mrs. George Wilson are leaving Prince Rupert today to reside in the south. Mr. Wilson has for many years other went off, ringing with a been business manager of The Daily News and we are glad have aroused acute irritation in a laugh to know that he will still remain a shareholder in the com- deaf man. pany and he is not definitely severing his connection with the business, his leaving being more in the nature of an extended leave of absence. Also he will represent the pa- claimed for them. But apparently think-I mean, you haven't got it per in the south and look after the business connections they had met their match in Ger-

When the present management took over the paper the be despondent about it. business and editorial offices were represented by only two Jimmy Thesiger. persons, Mr. Wilson being one. At that time the paper had little circulation and not much prestige. Since then led over and went to sleep again. changes have taken place. A large flatbed Duplex press suggested Helen (or possibly Nanhas been installed that delivers the papers ready folded cy just as do the big cylinder presses. An additional linotype able." said Rupert Bateman sermachine has been installed and also a stereotyping plant. doctor about it "I think he ought to see a anything to do except just wait. The paper has established for itself not only a large circulation but also a prestige among advertisers, who realize that they get results.

For the protection of the advertiser a circulation audit system has been instituted which absolutely guarantees the advertiser against fake circulation figures. The Daily News is the only paper north of Vancouver to use the A.B.C. audit and this sets it out from among the rest as one that can be depended upon. Any paper that cannot extra late for breakfast this mornsubmit to an audit is not to be depended upon in regard to ing-just to show us." circulation figures.

These changes have been brought about during the time Mr. Wilson was business manager and his efforts

have had a great deal to do with the success. While Mr. Wilson will be missed in the business department, it is not intended that his absence shall be permanently felt. Extra efforts will be put forth by the remainder of the staff who have been trained under him and it is expected that continuous progress will be made. In doing that the co-operation of the people of Prince Rupert and district is solicited.
