EMPLOYMENT STABILIZATION URGED

Railway Workers Make Many Suggestions For Remedying Situation

Favor 40-Hour Week With No Reduction In Pay, Fewer Apprentices, Elimination of Helpers and Other Changes

WINNIPEG, June 7:-The Canadian railways will be called upon to revise their entire general and financial structure in order to secure greater stabilization of employment as a result of decisions made at a convention of Division No. 4 of the railway employees department, American Federation of Labor, which concluded its sessions here yesterday. In an effort to overcome irregularity of employment, a schedule of proposed changes was drawn

The suggestions included a 40-hour week with no reduction in wages, reduction in number of apprentices and lengthening of their period of apprenticeship in harmony with a shorter week, gradual elimination of helpers, two weeks' holidays with pay each year and employment of a minimum force during periods of depression.
