**ARE YOU SAVING MONEY?**  
 Saving money is a great problem. Many people not only fail to save but they sink gradually deeper in the mire of debt until life becomes a burden to them and they are a nuisance to their neighbors.

By so arranging the household budget to suit the income any person can save at least a little. A savings bank balance gives a person a feeling of exhilaration, an independence that cannot be obtained in any other way. To know that you are ahead of the game and can control your expenditures is a great satisfaction to any person. To feel that you are the victim of circumstances and cannot get ahead is a severe handicap.

To give an idea what can be done by saving and investing in good securities let us assume that a person wants \$10,000 on which to retire in 25 years. All he has to do is to set aside \$18 a month, invest it at four and a half per cent and reinvest the interest every year as he receives it. Compounding the interest is the great thing. It makes the capital work for you double time.

**PROMPT ACTION OF GOVERNMENT**

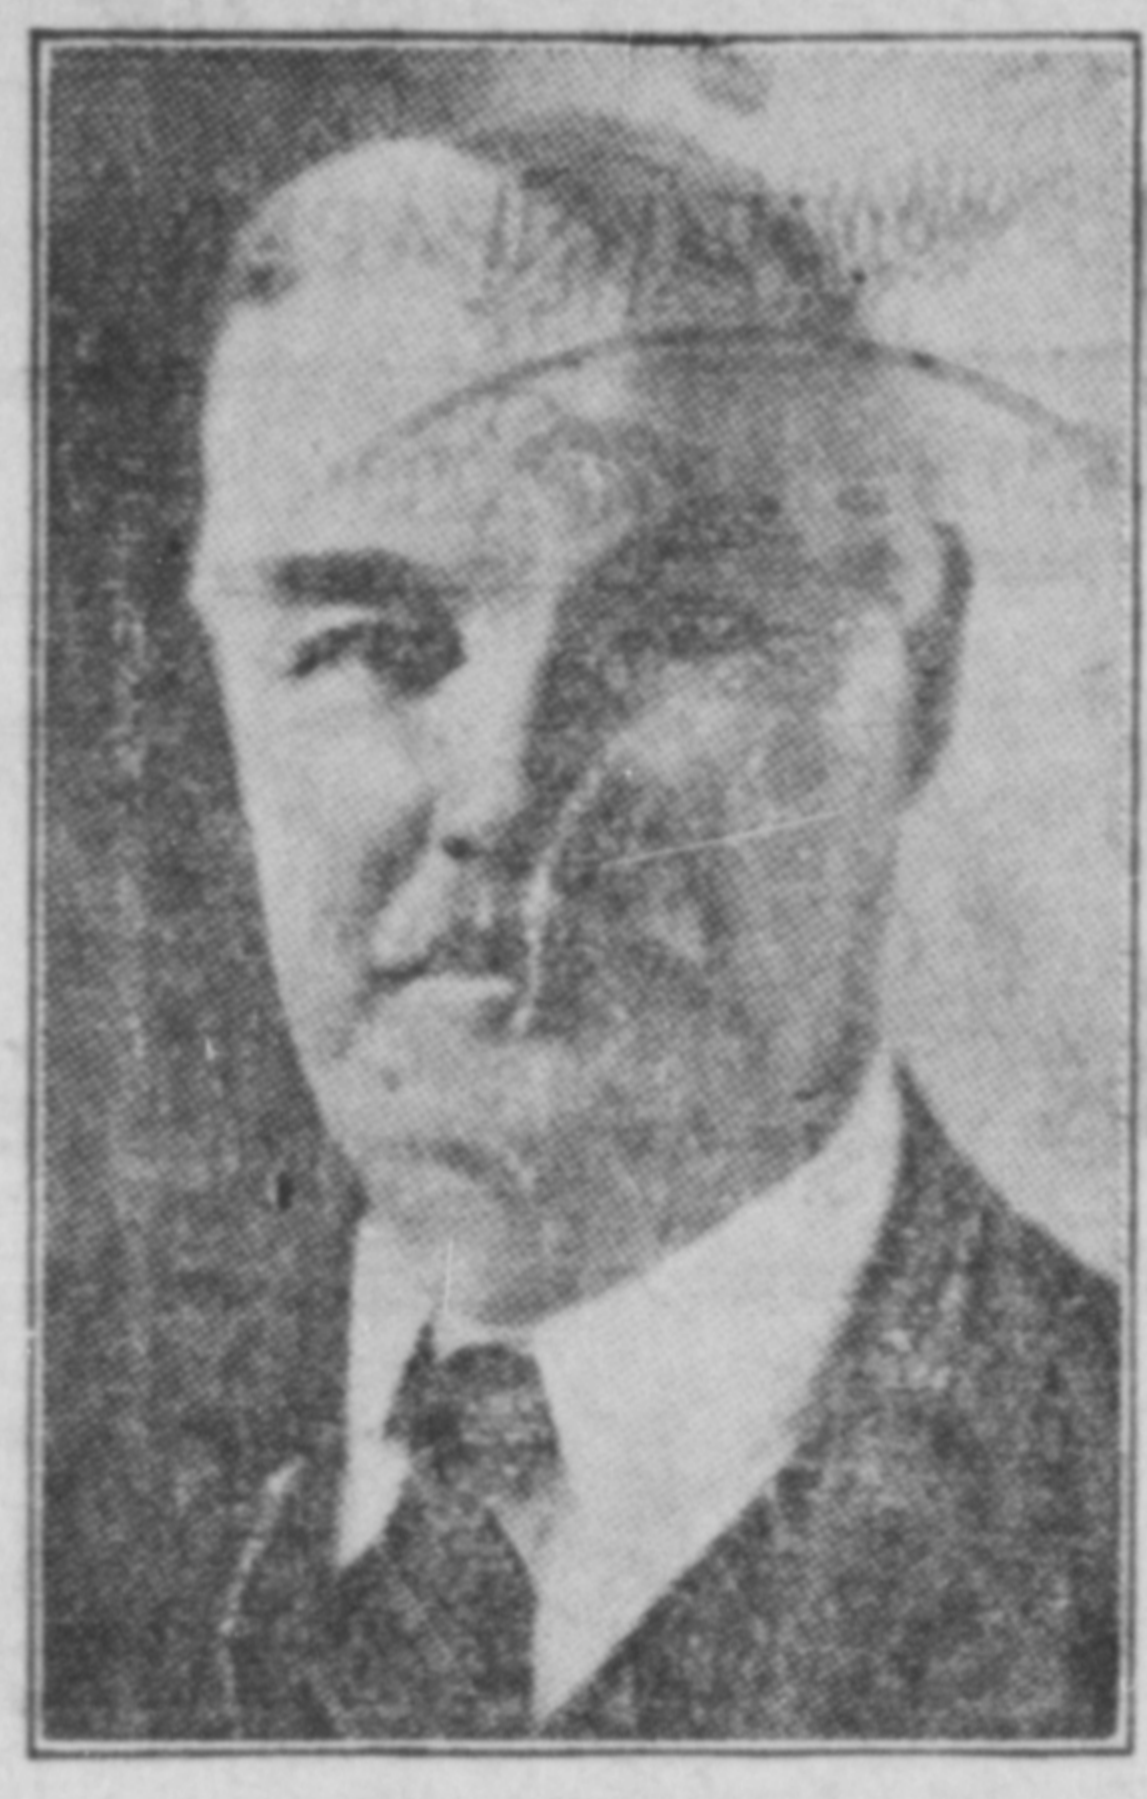

We congratulate Premier Bennett and his cabinet on their prompt action with a view to relieving unemployment. We hope that they will undertake the erection of a federal building at Prince Rupert and also come to the aid of the provincial government in the building of the trans-Canada highway to Prince Rupert. These are both badly needed and if they go ahead at once they will help a great deal in relieving the unemployment situation.

The federal building already has a site prepared with the basement excavated. The work could proceed at very short notice if it should be decided to do so. It is understood that the government is not renewing the lease on the present premises and if they move it would seem to be the reasonable thing to move into a building of their own.

**RAILWAY HOTEL**

The work on the railway hotel will also help the local situation a good deal. It is understood that negotiations have been under way toward securing the desired site and once this is settled some action toward building may be expected. We look to see the railway company carry out its promises and an announcement of a definite nature should be forthcoming in the near future.

**SIGHT WAS WONDERFUL**

Philadelphia Academic Party Has Interesting Trip From Jasper

WINNIPEG, MAN., Sept. 11—"I was one of the most glorious sights I have ever seen. From the top of Mount Castleguard I counted 15 peaks without the aid of glasses," said Dr. Kirkpatrick of the department of chemistry, University of Pennsylvania, while enthusiastically relating his experiences in Winnipeg yesterday after a month's exploration trip through the mountains surrounding and in Jasper National Park made along with three associates in the university.

Taking with them thirteen horses and one guide the party started out from a point nearly 200 miles south of Jasper and made the trip to the park in fourteen travelling days. Several side trips were taken while enroute and, according to Dr. Kirkpatrick, they covered more than 500 miles on horses. It was while enroute that the party attempted the climb of Mount Castleguard, Dr. Kirkpatrick being the only one successful in reaching the summit, making the climb in two and one-half hours. According to the records of previous climbers carved on trees at the foot of the mountain Dr. Kirkpatrick's time is the fastest yet.

In addition to Dr. Kirkpatrick the party included I. K. Simmons, department of chemistry, University of Pennsylvania, W. Strock of the academy of science, Philadelphia and Miss Mary Bullock, also of Philadelphia.

Dr. Kirkpatrick and Mr. Simmons continued their journey yesterday over Canadian National Railways for Northbay, Ont., from which which point they will motor to Philadelphia. Mr. Strock and Miss Bullock will follow them to North Bay today.

**CHEER FUND GETS BENEFIT**

"Queen of Hearts" Musical Comedy to Be Staged With Modern Settings

The Elks show committee, in charge of their musical comedy "Queen of Hearts," stated this morning that they were very anxious to let theatre patrons know that the Moose Lodge have removed the post in the centre of their hall. This has always been a handicap in putting over a show there, and the lodge went to great expense in reinforcing the roof, etc., so that any shows would have the advantage of the same staging as in a modern theatre.

Also Mr. and Mrs. C. J. McNaughton, professional show producers, carry all scenery for the production, which will lend itself to a perfect setting. Both scenery and costuming will be the most elaborate ever seen in Prince Rupert.

Of course the three-act farce comedy, with a wonderful cast, has drawn the most attention, but the musical revues should not be forgotten. And with the "Kupie Doll Revue" led by Mr. McNaughton, you will see one of the peppiest revues of the show. Little Misses Charlotte Balagno, Pauline Brady, Lindsay Waugh, Joyce Gawthorne, Norma Curry, Margaret Bryune and Doreen Byune will be the "Kupies," and it will be worth going to "Queen of Hearts" just to see them dance and sing.

There are 24 older girls in the other revues, and talented soloists that will lead them in their numbers.

The Elks are staging the show for their Christmas Cheer Fund, and when the seat sale opens at the Orme Drug Ltd., on Monday at 10 a.m. it is expected that there will be a rush for reservations. The show will be presented at the Moose Hall next Wednesday, Thursday and Friday.

Three Summers in Succession Experience of Australian Couple

WINNIPEG, Sept. 12.—To have lived three summers in succession without a winter intervening, will be the experience of J. H. Gosse and his wife by the time next winter is over.

They live in Australia. At the end of last summer in Australia they started off for England arriving there at the beginning of summer. Now at the end of northern summer they are proceeding home, where they will find the southern summer commencing.

Mr. and Mrs. Gosse, and their eldest son arrived in Winnipeg yesterday over Canadian National lines, and rested for the day, before continuing their journey to Jasper Park and Vancouver. When they leave Vancouver they will still be 21 days from Sydney, and 25 days from home, which is Adelaide.

Mr. Gosse is on the board of directors of the News Limited, which publishes several newspapers in South and West Australia. He is president of the Zoological Society of South Australia.

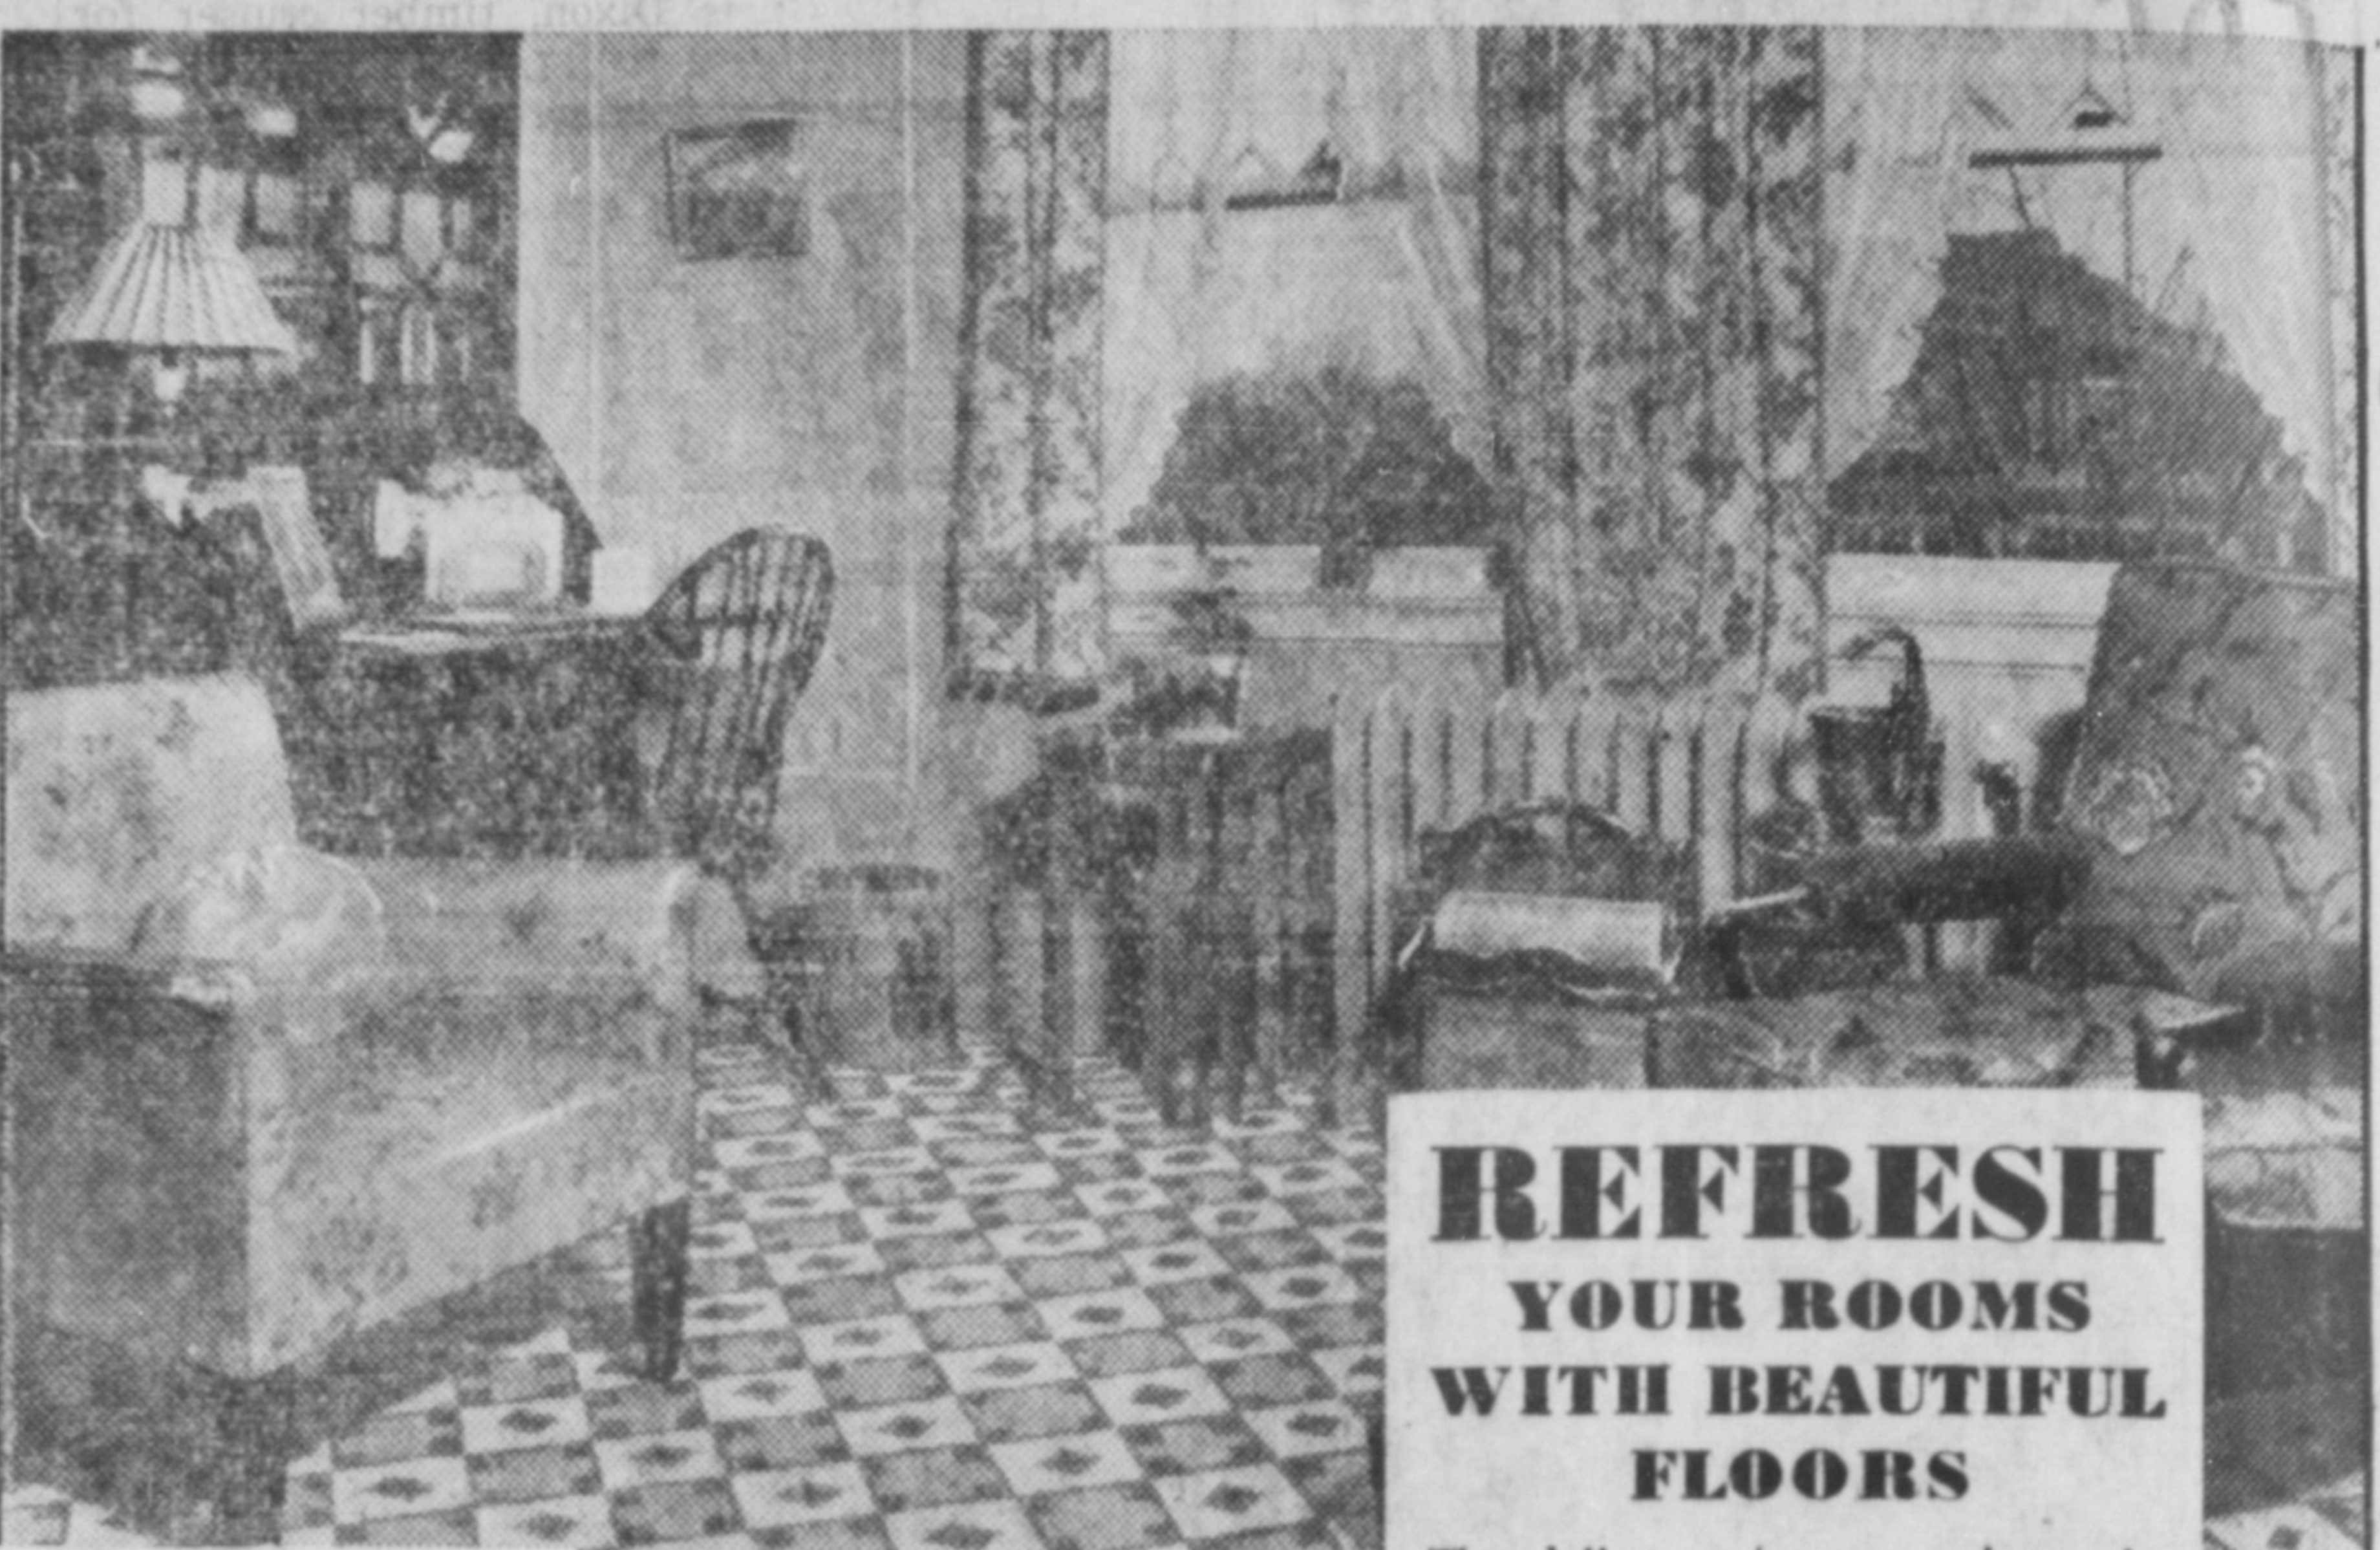

Three Canadian Buffalo, which were presented to the society last February, were just shedding their winter coat at the beginning of the Australian winter when Mr. Gosse left. It will take them three or four years he states, to fall in line with Australian seasonal conditions.

During the week that he has been in Canada, Mr. Gosse made some arrangements for the exchange of Canadian and Australian animals for zoos.
