DELEGATES APPROVE NAVAL IKEATY

Five Powers Agree On Draft Which Will Be Duly Signed Tuesday

Nothing Appears to Prevent Successful Culmination Tomorrow of Long and Arduous Conference

LONDON, April 21.—The heads of the five delegations to the naval disarmament conference met today and formally approved the draft of a treaty which was then sent to the printers. All difficulties in the way of the signing of the treaty appeared to have been straightened out and there was every indication that nothing would prevent a ceremony at 10:30 tomorrow morning culminating the long and arduous work of the conference which opened three months ago today.

TROUBLES

orders Saturday

CALCUTTA, April 21:- A group of 100 Indian Nationalists Saturday attacked the police armory at Chittagong, across the Mieghna estuary east of here, and killed six defenders including one sergeant-major. Before assaulting the armory, the insurgents cut telephone and telegraph lines out of the city which has a population of about 30,000 and derailed a train about 40 miles away, blocking the railroad line.

A detachment of Eastern Frontier Rifles under command of Lieut. Col. Dallas Smith, ordered from here to Chittagong to handle the situation is expected to reach there today.

Nipissing Mining Co. of Cobalt to Enter Field and Also More American Interests

VICTORIA, April 21:-Advices received by the Department of Mines intimate that the Taku River, artery of travel into the province's recently discovered lode mining camp on the Tulsequah River, will be the scene of an important mineral rush on the opening of navigation about May 1. Hon. W. A. McKenzie, minister of mines, has been informed that prospectors from Juneau, Prince Rupert, Stewart and other places are waiting for the opening of navigation to go in. The Department points out that the operating companies will be able to absorb only a limited number of workers, however.

It is also announced that the Nipissing Mining Co. of Cobalt, Ont., intends to put an exploration party in the field. American capital is also interested.

: COAL POWER FOR DUTHIE

Central Interior Hears That Generating Plant May Be Moved to Telkwa Coal Co. Mine

A rumor is current in the central interior that there is a deal on between the Duthie mine and the Telkwa Coal Co. whereby the power plant at the former would be moved to the latter and coal used for fuel. The greatest expense in connection with the mine in the past RESIGNING? has been in fuel for the power plant. By the use of coal at the mine, it is estimated that a cut of \$15 could be made in the horsepower cost which would be a great saving in Duthie mining opera-
