Duke of York Favored And Sir Robt. Borden Also Named for Post

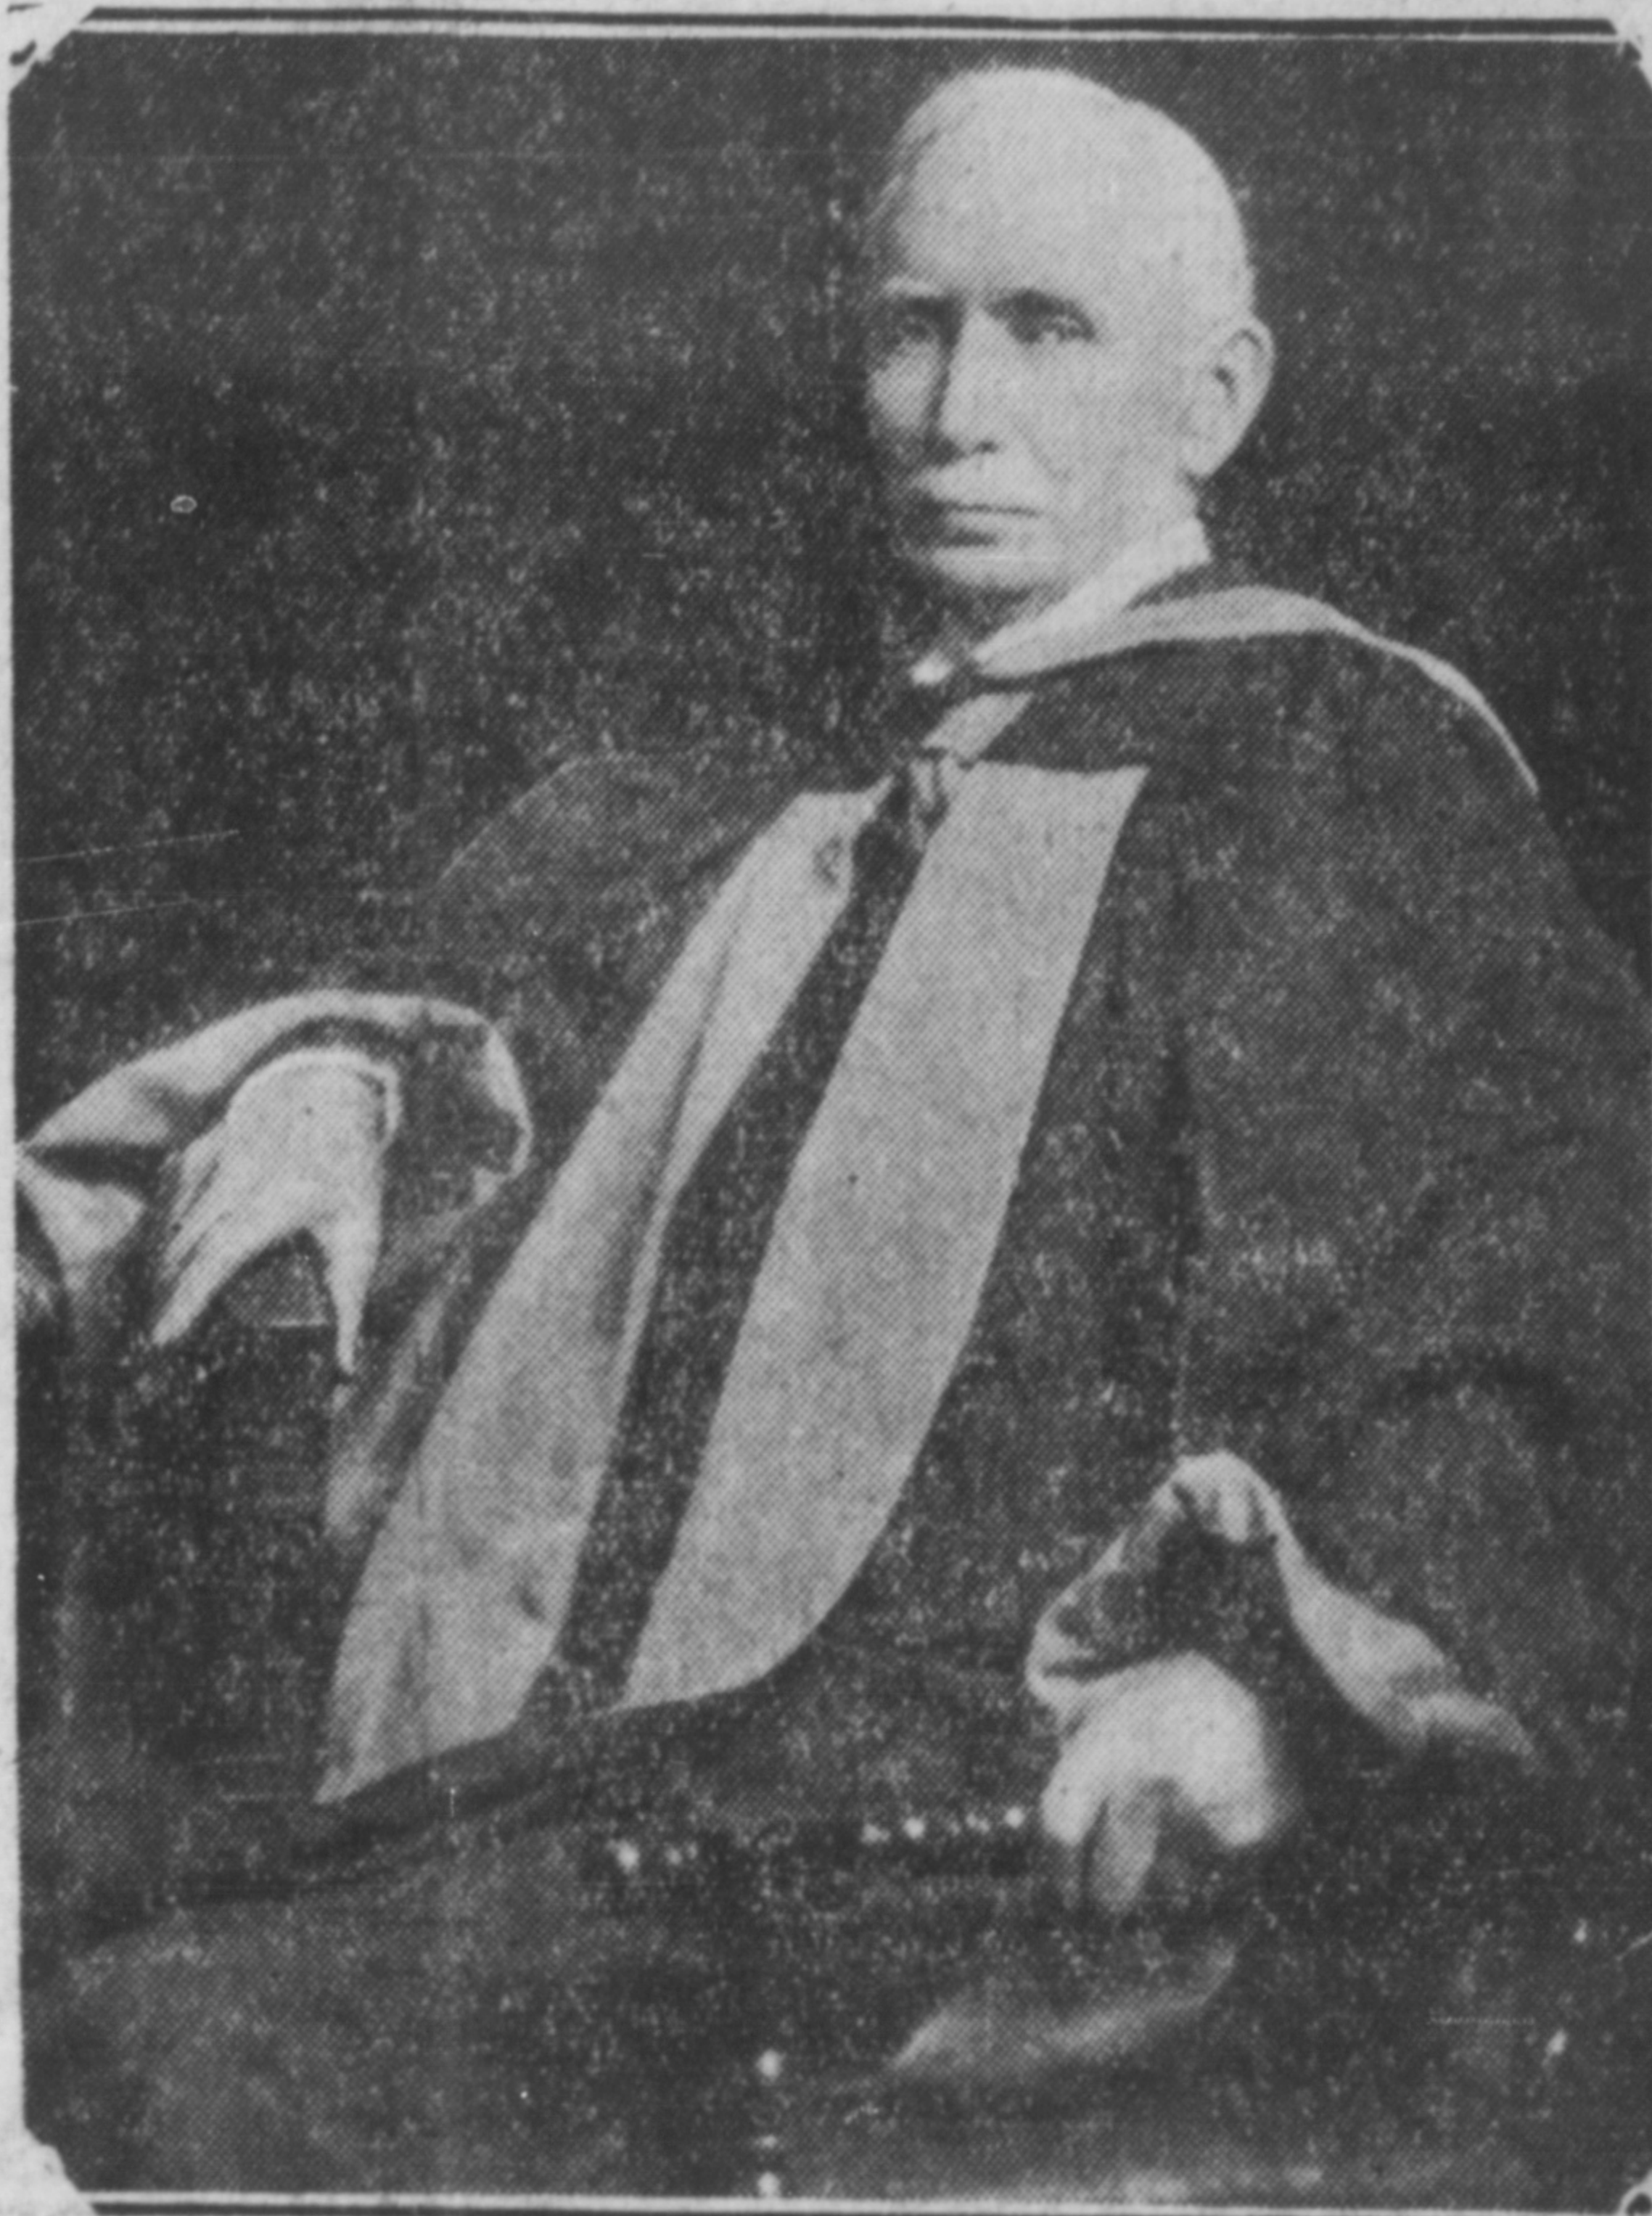

Suggested Appointment of Australian For That Commonwealth Revives Gossip in This Country

OTTAWA, April 24:—A report from Australia that an Australian has been recommended for the next Governor-Generalship of that Commonwealth has revived gossip here as to who will be the next Governor-General of Canada. Lord Willingdon's term expires next year. It has been frequently suggested that the Duke of York may be named his successor and he is likely to be the first choice of most Canadians. In case this is not possible, the question of the appointment of a Canadian would no doubt be given much consideration. The name of Sir Robert Laird Borden, former Prime Minister, has often been mentioned for the post.

The views of the Canadian government will likely be forwarded this year, possibly at the time of the Imperial Conference, to London.

HEARST IS OUT AFTER JAIL REFORM

Leading Article Scores Ruling Class
of United States For Methods

NEW YORK, April 24:—The Hearst chain of newspapers today carry a scathing editorial written by William Randolph Hearst which speaks of the cold-blooded indifference shown by officials at the Columbus penitentiary on the outbreak of the fire which took over 300 lives Monday. It describes the jails of the country as "black holes of Calcutta" where young and inexperienced are crowded together with hardened criminals, and he blames part of the trouble on the efforts to enforce prohibition. The Hearst papers say that the aim of the authorities seems to be to punish rather than prevent. To remedy this they ask for more conscientious legislators. The ruling classes of America are scored severely and the warning given that if there is not a change there will be a repetition of the Russian catastrophe in this country.

PATTULLO IS HAPPY

Has Nothing to Do But Uphold
King Government and Condemn
That of Tolmie

Mr. Pattullo is more happily placed this time, writes Bruce Hutchison in the Vancouver Province. His time is his own, and he is the happiest man between the forty-ninth parallel and the Yukon boundary. He will march through the country as before, and no one can complain of it. He will march through the country to uphold the Mackenzie King government, but even his fervent faith in the Mackenzie King government will not occupy him all the time. Somehow, despite all his natural inclinations, he will find opportunity, while saving the government of Mr. King, to destroy that of Dr. Tolmie. But let not Mr. King be alarmed lest Mr. Pattullo devote too much time to Dr. Tolmie and not enough to him. Mr. Pattullo has found already that the Tolmie government is destroying itself so fast that it needs little assistance from him.
