

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial?

Peps is the discovery! Peps are little tablets, containing certain medicinal ingredients, which when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing.

FREE TRIAL Cut out this article, write across it the name and date of this paper, and mail it with 1c. stamp to pay return postage to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

CHAMBER OF MINES

Editor Daily News:

Now that the citizens and City Council of Prince Rupert have started a permanent "After the War Reconstruction" of buildings, roads and many other important works of benefit to Prince Rupert and district, I believe the importance of starting a Chamber of Mines in Prince Rupert should not be overlooked at this time in preparation for next season's mining activity.

United States and Eastern Canada mining men are anxiously and earnestly seeking for mining properties in the several mineral districts tributary to Prince Rupert and we should have a bureau or Chamber of Mines in Rupert that would be second to none in the province.

Object of Chamber.

The object of a Chamber of Mines means the collection and centralization of mineral specimens and samples from the various mining properties and prospects throughout this section of the province, as well as mining news and data of interest to mining men and capital.

The Chamber of Mines would be a place where prospectors or owners of mineral ground may bring or send samples and descriptions of their properties and the secretary would there catalogue the samples or specimens and place same on exhibition, showing the location of the property and owner's name and address as well as owners or engineer's report on the property.

Mining investors coming to Prince Rupert would visit the Chamber of Mines and there gain information that would save them months of traveling over the district and very often going away without meeting owners of mineral ground worthy of investigation.

Valuable Samples.

There are many beautiful and valuable specimens of ore in numerous offices about town, many of which are neglected and out of sight and are serving very little good to the owners or community. Up to date data is usually lacking and very often lost so that valuable samples which were likely brought down from the hills under considerable expense and hardship, become worthless.

The Chamber of Mines could be in a very small building, but it should be located some where between the G. T. P. dock and Second Avenue and beside the public thoroughfare, so that the thousands of strangers who pass through our city might have an opportunity of quickly viewing the mineral exhibit and securing data.

In Vancouver.

In Vancouver the city as well as the Provincial Government, gave valuable financial assistance and encouragement to the Chamber of Mines. Their reading and lecture rooms are well patronized and on their register appears the names of visitors and mining men from all parts of the world.

Let us have the best Chamber of Mines in the province and boost for the prospector and greater mineral development of Prince Rupert district in particular, and Canada in general.

Thanking you, I am
C. P. R.

**SIR LOMER GOVIN
MAY RESIGN SOON
FAVOR J. E. CARON**

QUEBEC, Nov. 13.—There is a renewal of the rumors that Premier Sir Lomer Gouin has announced his resignation. It is generally conceded, even by Liberals, that Sir Lomer will shortly retire from the leadership in Quebec. Rumors also announce that he will be succeeded by Hon. J. E. Caron, minister of agriculture. The object of this, it is stated, is to prevent any movement in this province to start a United Farmers party such as exists in Ontario.

James F. Marten
