Beautiful hair!

Modern hair dressers arrange the hair so beautifully that it's bound to attract attention. That's why it's so important to guard its color and lustre; keep it in perfect condition. There is no surer, simpler way to do this than with Danderine. Each time you use your brush, just moisten it with this delicately fragrant liquid. Then as you draw it through your hair, it removes the excess oil; brings out the natural color; makes the hair fairly sparkle with new life and lustre. How much easier it is to arrange the hair afterwards. How it stays in place. And try "setting" the waves with Danderine. They stay in so much longer. Danderine quickly dissolves the crust of dandruff; puts the scalp in the pink of condition; helps the hair to grow long, silky and abundant!
