**ORIENTAL QUESTION**

Concluding an article on the Oriental question published in two parts in McLean's Magazine, under the title of "British Columbias Racial Problem," Charles E. Hope suggests what he thinks would be a solution. We are not endorsing that solution, but are passing it on for what it is worth, hoping it will tend to impress people with the idea that there may be some other way of dealing with it than total exclusion, which may mean exclusion of trade. Mr. Hope's suggestion follows:

In the past, the only cure which anybody could think was "total exclusion," and this is practically what has happened, so far as the Chinese are concerned. Total exclusion of all Asiatics is still advocated, but many people are beginning to realize that "silent penetration" has gone so far that even total exclusion would not now be a remedy for the economic ill from which we are suffering. It certainly would be of no avail in a national sense, owing to the high Japanese birthrate and the fact that ninety-five per cent of all the Japanese in Canada are in the one province.

A new school of thought is arising which says: "Why have exclusion of any kind for any Oriental race? Let them alone, but be registered on arrival with a six months permit. Admit none without possessing an agreed sum of money, or bank credit. Allow none to become permanent residents except by license. In the case of students, teachers, bankers or merchants exporting and importing manufactures and products of the two countries, or servants and employees of such licensed immigrants, register all now in the country and permit them to continue their present occupations under license, but reduce such licenses gradually from year to year. Negotiate treaties with Oriental countries so that these regulations would be reciprocal and apply to all Canadians in Japan and China or any other Oriental country."

**Sympathetic Understanding**

Oriental students entering Canadian universities should be encouraged, and even scholarships given with this end in view, as it is very desirable in the interests of both Canada, Japan and China, that we should get to know each other better, and understand each other's culture, ideals and ambitions.

A sympathetic understanding is the surest foundation for international friendship, but to allow the present situation to continue and develop as it is developing, is sure to breed international misunderstandings, jealousies and hatreds.

This new idea of "curtailment of occupation" instead of "total exclusion" has some merits. "Total exclusion" suggests some kind of inferiority complex in the excluded race, which quite naturally is resented. On the other hand, "curtailment of occupation" would be reciprocal, and it is also practically an admission, so far as Canadians are concerned, that we cannot stand up to the Oriental in competition along certain lines of activity. This might just as well be admitted anyway, as it is self-evident because we cannot compete if we are going to maintain our present standard of living and Western civilization.

Canada cannot afford to allow her Pacific province to become Orientalized, either now or at any time in the future. She must at all costs remain mistress of her own destiny.

**MAROONS WIN OVER RANGERS**

New Yorkers Outclassed in Hockey Last Night; Boston Snatches Victory From Toronto

MONTREAL, Feb. 12.—The Montreal Maroons outplayed the New York Rangers in a clean, fast National Hockey League game here last night, the final score of 5 to 2 being indicative of the merits of play. The stellar goal tending of Roach in the Rangers' net is all that saved the New Yorkers from an even worse defeat.

Local Friend Hears He May Attempt Come-back Should Phil Scott Beat Jack Sharkey

Barney Doran has received a big picture of Jack Dempsey, former world's heavyweight champion, in his fighting togs. Judging from the illustration, the Manassa Mauler seems to be in fine condition still despite his absence of a few years from the ring.

In a letter to Doran, Dempsey says that, should Phil Scott defeat Jack Sharkey in the Miami bout on February 28, he is going to prepare himself to re-enter the ring to meet the winner of the Scott-Schmeling bout, in order to keep the title in America.

Doran and Dempsey are old friends from the vaudeville circuits.

**Needless Suffering**

The next time a headache makes you stay at home—  
Of some other ache or pain prevents your keeping an engagement—  
Remember Aspirin! For there is scarcely any sort of pain it cannot relieve, and relieve promptly.  
These tablets give real relief, or millions would not continue to take them. They are quite harmless, or the medical profession would not constantly prescribe them.  
Don't be a martyr to unnecessary pain. To colds that might so easily be checked; neuritis, neuralgia; to those pains peculiar to women; or any suffering for which Aspirin is such an effective antidote.

You need not hesitate to take Aspirin. It is safe. It is always the same. It never depresses the heart, so use it as often as needed; but the cause of any pain can be treated only by a doctor.

**NEWS!**

**A**N ALERT newsboy, on a day when news was dull and sales were few, turned to the advertising pages for inspiration.

"Read about the big reduction sale," he shouted. "Fine quality tea sets at \$3.50 and \$4. Fancy china-ware sacrificed."

His stock of papers was sold out very quickly.

The case is, of course, exceptional. But it points to the fact that advertising is news—and important news. It is the news of daily life, the news that comes closest to you and those about you. It is news of the furniture you sit in, the books you read, the bonds you buy, the automobile you use, the flashlight, talking machine and food product that give you satisfaction. News that concerns you more vitally than anything else you read. News that is essential to you, because whether you purchase a piano or a pin, you want the best your money can buy.

—and you can always be sure you are getting the newest and best when you read the advertisements.

The advertisements contain pocketbook news—and that's important!
