THERE IS A DIFFERENCE

There is a difference between the position of Prince Rupert and the southern cities in regard to the use by the railway company of the big shipyard and dry dock here. work on the road gangs. PROPERTY OWNERS' ASSOCIATION

The formation of a property owners' association in the city is a very proper move. Labor has its Trades and Labor Council always alert and the retail merchants are also or- country from five to twenty years ganized to look after their own interests. Owners of property have certain other interests that deserve attention. With a good list of officers they may well serve the city by drawing attention to matters which seem to them deserv ing of action. We welcome the organization of such a body as that proposed.

CHANGES IN INDIA

India has for many years been fretful under British what is known as good times. Now rule. British officials have had to be autocratic in their they are up against it and the counmethods because of the type of people with whom they try is feeding them. Prince Rupert have had to deal. The result has been that the men whom the British people have educated then? have been the leaders in a movement to oust the British from the country or at least to curb their power.

A measure of autonomy has been proposed which it is possible may be temporarily acceptable. But it will be only a temporary expedient. The agitation will undoubtedly continue until the country attains full Dominion status. In the meantime the people will be getting experience in managing their own affairs.

DEPARTMENT OF TRADE AND COMMERCE OTTAWA, CANADA

December 27th, 1930.

To My Fellow Citizens, Everywhere in Canada.

Ring Out the Old, Ring in the New!

Another few days and 1930, with whatever it has brought us of success or of failure, will have passed into history, and our thoughts will be centred on a new year, and on the better times we sincerely hope it has in stome for us.

While the opportunites of the past are gone beyond recall, the future is ours to make of it what we will. And we can make it a far brighter, afar more prosperous future, for ourselves individually and for Canada as a whole, if we all resolve to profit by the lessons our experience has taught us.

Among those lessons, surely we have learned how dependent each of us is for his own opportunities and his own advancement upon the well-being of Canadian producers as a class, and how much better it would be for every one of us if in our daily buying we were all to favour Canadian products.

If you believe that "Produced-in-Canada" doctrine is sound common sense, that it points the logical way not only to relieve unemployment but to lay broader and deeper the foundations of our national prosperity, why not make the practice of it one of your foremost resolutions for 1931?

Celebrate the new year by ringing out old habits of carelessness im buying, and ringing in the new resolve henceforth to be studiously careful. For 1931 let this be your creed:

"I believe in Canada.

"I love her as my home. I honour her institutions. I rejoice in the abundance of her resources.

"I glory in the record of her achievements. I have unbounded confidence in the ability of her people to excel in whatsoever they undertake. I cherish exalted ideals of her destiny as a leader among world mations.

"To her I pledge my loyalty. To the promotion of her best imterests I pledge my support. To her products I pledge my patronage. And to the cause of her producers I pledge my devotion."

If you are willing to embrace this creed, a copy of same artistically executed in colours, and on heavy stock suitable for use as a wall hanger or for framing, is yours for the asking. Just clip and fill in the coupon herewith. Address your envelope as shown on the coupon. Mail it without affixing stamp, for this particular letter will be carried free.

Very sincerely yours,

Minister of Trade and Commerce.
