CHAMBER OF MINES

To the Editor:—

It gave me great pleasure to read in your columns yesterday the letter of C. P. Riel giving such a splendid boost for the establishment of a Chamber of Mines here. He sees the matter with such clear vision and expresses himself so forcibly that his letter cannot fail to have struck attention. As you must know, Mr. Editor, there should be a strong endeavor to center all the growing mining business at this point, and Mr. Riel's able letter will materially assist this being done.

But Mr. Riel must not flatter himself that he is the first to point out this necessity to our further expansion and prosperity. Others have had exactly the same thought as he, and have even taken practical steps to bring it about. Mr. Riel is perhaps a stranger in our midst, or perhaps has been away for a time. His letter reads like the prospectus of the Prince Rupert Free Miners' League which you printed in your office some time ago, although the prospectus is scarcely as well expressed as is the able argument of Mr. Riel.

Is Chamber Here.
No doubt Mr. Riel will be pleasantly surprised to learn there is such a chamber of mines in active operation here, with the best collection of local ores that has ever been collected. Mining investors and mining engineers are already using the Free Miners' League in their inquiries and search for promising mining enterprises, and the prospectors are also using it as reading and writing room and general headquarters. The League is just now at work preparing circulars calling upon prospectors and mine owners to send in their samples with minute particulars of their mines, and another circular to mining engineers and probable mining investors stating the reliable character of the mining information that is to be found at the League bureau. We do hope to have by far the best chamber of mines in the province, and will undoubtedly have it in time, but I feel confident Mr. Riel could materially aid our movement with practical suggestions, and have therefore pleasure in inviting him to call at the Free Miners' League—No. 621 Second Avenue.
WESTON COYNEY, Secretary.

RECOVERY OF PROVINCE FROM BAD CONDITION

(Continued from Page Three)

present Government took office the collection of income tax was not regarded in a very serious light. The wastepaper basket invariably received the tax bill and little or no attempt was made to enforce payment, either of arrears or of current charges. Investigations since then, the minister observes have demonstrated that in addition to this thousands of persons never have been assessed on income. On that account one of the first things Mr. Hart did was to appoint special collectors in the larger cities to comb in all tax arrears and especially income tax. The poll tax, too, was made collectable at the same time, the assessors in all districts being instructed to bring their rolls to date in the case of all persons liable for income tax. The result is shown in an increase in the collection of income tax from \$296,804.75 in 1916-17 to \$670,683.25 in 1917-18. The arrears of general and school taxes at the end of 1916 aggregated over \$4,000,000, running as far back as 1914. During 1917 the special collectors gathered in arrears to the tune of \$353,511.83 and, in 1918, \$175,076.20.

Mr. Hart points out, too, that by the employment of special auditors greater uniformity is shown to have been obtained in the making of income tax returns, while this part of the work of the taxation branch has been instrumental in adding to the rolls a large amount of taxable income at a cost of under two per cent. on the extra revenue.

WEDDING AT SMITHERS

On Armistice Day the wedding was solemnized by William Kirton and Miss A. L. Foss. They have left for the prairies on their honeymoon. The ceremony was performed at Smithers by Rev. W. S. A. Larter. Both bride and groom are well known residents of the northern interior.
