

THE reason that Fire Insurance Companies insure your property so cheaply is because they have a great number of properties insured in a great many localities in many different cities. Thus their risks are subject to the law of averages. The individual who carries his own risk (in other words does not have his property insured) cannot possibly so diversify and scatter his risks as to bring the law of averages to apply to his property. Therefore the insurance companies can carry your risk cheaper than you can. **H. G. HELGERSON, LTD.**, are writing insurance carefully and in thoroughly reputable companies. Phone 96 and we will be glad to quote you the rate on your risk.

"Rexall Remedies"

A name that all America has learnt to
know and rely upon

"Rexall Remedies" are successful because of the high standard of quality that is rigidly maintained in compounding formulas based on proven principles. Confidence has been established because of the conservative claims made.

"Rexall" does not in any sense stand for "Cure-all." Instead there is a nature-aiding preparation for every human ill. "Rexall Remedies" do not contain harmful stimulants or habit forming drugs.

"Rexall Remedies" are sold in this city by
