LOOKING FORWARD

Savings in Money and Service Offered Those Who Would Buy Coal Now

Successful men in all spheres of life credit their success to the fact that they looked forward to the future. Astor looked ahead to real estate values in New York; Rockefeller to the great development of oil. The same has applied to all successful men in the world—either in greater or smaller degrees. All have believed in looking ahead and providing for the future in all things.

Housekeepers know the value of looking ahead and securing their grocery supplies at lower prices. It is also well to arrange ahead for the winter's fuel supply. At this time of year, by placing your order with your coal dealer, you can receive from him better service and, in all probability, better fuel than he would be able to give you two months hence when everybody is buying coal and when it is rainy and snowy.

Sixteen years' experience in the coal business has put us in a position to take care of all your fuel wants. We especially recommend Nanaimo-Wellington No. 1 Hard coal of which we have received on our wharf during the past week two thousand tons. Remember that we quote special cash prices for lots of five tons or more.—ALBERT & McCAFFERY, LTD. (Advt. 216)

J. P. Hawkinson, Stewart restaurant and laundry proprietor, arrived in the city on the Catala today, being called here for jury service at the Supreme Court Assizes this week.
