One Hundred Books Arrive for Cloyah Bay Unemployment Relief Camp

The Public Library Commission of British Columbia has sent a library of one hundred books from Victoria for the unemployment relief camp at Cloyah Bay, complying with a request to this effect from the Prince Rupert Unemployment Association. The books arrived from the south on the Princess Mary yesterday afternoon.

Second Tender for Supplies Was Accepted

City Council Holds Special Meeting to Arrange For Purchase Promptly

A special meeting of the city council was called for last night to reconsider the tenders for supply of tools for unemployment work, the contract for which had been let to Howe & McNulty. The firm had been unable to purchase the goods as specified owing to the fact that there was a great demand in the south for similar material just now. They were prepared to supply a slightly better grade at an increased price.

In view of the situation the second bid, that of Philpott, Eviatt & Co., was accepted, that firm having given assurances that it can supply the goods next Wednesday. Their tender was \$498.97, a few cents higher than Howe & McNulty's revised tender.

Lloyd George Calls Election "Wanton and Unpatriotic" — Urges Followers to Support Labor

London, October 10.—Defining a battle between capitalism and socialism as the broad issue of the present British election campaign and indicating a complete reorganization of the social and economic system of the country on a socialistic basis as the keynote of the Labor party's platform, Rt. Hon. Arthur Henderson, leader, issued his complete manifesto yesterday. The principal planks in the platform are:

1. Negotiations looking to cancellation of war debts and reparations between Young Plan signatories and the United States.
2. An international conference with a view to developing a uniform monetary policy.
3. Restoration of the unemployment dole to the former basis prior to recent reductions.
4. Public control of banking and credit system.

Any attempt to bolster up a bankrupt capital by a system of tariffs is repudiated. Rt. Hon. David Lloyd George, speaking from his bedside over the radio, described the present campaign as "the most wanton and unpatriotic" election into which the country has ever been plunged. He appealed to his adherents to join the Labor party in opposing the National government.

Sir Herbert Samuel, one of the Liberal leaders, stated that he was not prepared to permanently renounce the policy of free trade although he was prepared to support emergency tariff measures at this time.

BODIES ARE RECOVERED

Natives Find Bodies of Two Men Who Were Drowned Thursday at Warke Canal

The bodies of George Ryan and George Cooper, Port Simpson Indians, who were drowned on Thursday in a swift river at the head of Warke Canal when a canoe upset, were found yesterday morning by native searchers, the provincial police were informed last night. An inquiry into the tragedy was held yesterday by the coroner at Port Simpson and it was established that the circumstances had been of an entirely accidental nature. The two men will be buried at Port Simpson.

REPORT ON CONVENTION

Ald. S. D. Macdonald Tells of Recent Vancouver Gathering

Ald. S. D. Macdonald, president of the Trades and Labor Council, presented his report on the recent Dominion convention in Vancouver to the local council Thursday night.

The report stated the convention was one of the most important and outstanding in the history of the Dominion. Over 250 delegates were in attendance, representing the trades union movement from Nova Scotia in the east to B.C. in the west.

Fraternal delegates were present from the British Trades Union Congress and from the American Federation of Labor.

Addresses were given Hon. Gidson Robertson, Minister of Labor for the Dominion, Hon. W. A. McKenzie, Provincial Minister of Labor, Hon. R. L. Maitland and Angus McInnes, M. P.

A decidedly new feature of the Congress was the presence of four Japanese delegates representing the Camp and Mill Workers' Federal Union. This organization asked that "Exclusion of Orientals" be deleted from the platform of principles. An amendment was concurred in substituting "Exclusion of all races that cannot be properly assimilated into the national life of Canada."

Resolutions on unemployment and underemployment took up the major portion of time of the convention and while many palliative measures were suggested the findings of Congress may be summed up as follows: A shorter work-week, increase in pay per hour and contributory unemployment insurance.

Resolutions Passed The following are some of the resolutions concurred in: Cancellation of war debts. National Health Insurance. National control of banking system.

Public ownership and democratic management of public utilities, present owners to be reimbursed only on actual assets regardless of watered stock.

Enactment of legislation whereby mortgage holders and landlords and municipal corporations are prevented from taking advantage of persons unable to pay.

A resolution asked that all motor transportation companies be licensed under the control of the Railway Board of Canada, and stand-

William Green Sounds Clarion Call in Fine Address in Vancouver

Canada and United States Should Court Confidence of Great Potential Markets of China, Japan and Other Asiatic Countries

VANCOUVER, Oct. 10.—Delivering before the local Canadian Club yesterday afternoon one of the most stirring speeches that has ever been heard in Vancouver, William Green, president of the American Federation of Labor, sounded a clarion call for the development of trade between the North American continent and the Orient.

A crowd of listeners which crowded the Oak Room of the Hotel Vancouver and overflowed into the galleries cheered the labor leader to the echo as he developed his theme which is so close to the heart of the Pacific coast.

Declaring the greatest potential market in the world today to be in China and the rest of Asia, Mr. Green urged the confidence of the Chinese should be invited by Canada and the United States. "Fifty years from now there may be developed in the Orient a great, unsaturated market, rivalled only by our own home market in importance."

TRADES AND LABOR MEET

Objections to Dual Position Holding Compensation Scale

A representative of the Unemployed Association was present at the regular meeting of the Trades & Labor Council, Thursday evening. He complained of dual employment in the city, and asked for co-operation in the endeavor to make it so that one position is confined to one person. The meeting promised to take this matter up with the proper authorities.

A letter was read from the Workmen's Compensation Board, regarding the scale of compensation in the event of injury to men in unemployed relief. It was to the effect, that under the act, the rate will be 62½% of the present wage rate, \$2.80 for married men and \$2 for single men.

Criticism of the basement of King Edward High School being used as a class room, was received. The matter will be taken up with the School Board.

Election of officers was again postponed for another month.
