Opposition Leader Is Critical of Victoria Gov't on Many Scores

Return of Liberal Party Is Only Hope For Common-Sense Administration-Clique Rule, Patronage and Extravagance Are Charged

The Tolmie government is not administering affairs for the benefit of the province and not even for the benefit of the Conservatives but for the benefit of a clique which is now in control of British Columbia. The Tolmie Government had engaged in such an orgy of gross partizanship that it had been forced to attempt to cover it up by em-

barking upon an enormous program of public works which was not MURDERER justified under conditions at that time. The Tolmie Government has been compelled to impose the uni-EXECUTED versal one per cent income tax not because of a legacy of debt left it because of a legacy of debt left it by the former Liberal administration but on account of its own ex-

travagance and wastefulness.
