LIBRARY MUST WAIT

There is need of a new building to house the library, the Native Couple activities of which have outgrown the present premises Native Couple which it occupies. That is generally recognized by anyone in close touch with the situation. Each year sees a greater demand for books and consequent need for greater accommodation. Already a part time assistant has been provided for the librarian; new shelves have been erected in every possible nook and corner of the building to accommodate the books and patrons secure their books under cramped conditions. This year will probably be the last when even moderate accommodation will be available and the board commandant Wil'iam Kerr offiof this year should set about serious planning with a view ciated at the marriage of Miss have initiated a battle against the to action at the earliest possible moment.

It is not likely that any new building can be provided for Mrs. Percy Temple of Kitkatla, to the library this year. Patrons and staff will have to George Alexcee of Port Simpson struggle along as best they can until financial conditions improve.

There seem to be three possible methods of dealing with the problem. One is to erect a new fireproof building on city proprty; another is to secure the consent of the government to enlargement of the present premises; the the city restaurants. third is to move to the building formerly occupied by the St. Andrew's Society which has been offered to the library for Port Simpson where they will board by the provincial government rent free. The diffi- reside. culty with the second and third method is that there is no security of tenure. If the provincial government would do- Leif Erikson nate either of the sites or give a lease for a term of years, action might be taken at once. Possibly the government might be approached once more and the whole situation be explained to them. Then they may feel that the provision officers Elected Last Night and of a public library is so important a work that they would be willing to donate the building and site which is now not used.

PLUM PUDDING VINDICATED

"Isn't science wonderful!" exclaims the Winnipeg Free After the business meeting was Press editorial writer and continues: "Several famous over, refreshments were served gentlemen have issued a statement that plum pudding has and a dance followed, lasting to 1 all the alphabetical vitamins that have so far yielded them- o'clock. selves up for classification. About calories they are maintaining a decent silence. But if the family has its vitamins the calories can for once take care of themselves.

"For a while things looked rather dark for the pudding. when the world was divided into those who were dieting Ratepayers Call what the other half of the world was eating. There might be a degree of hope with another dessert, but when the fragrance of the delectable viand proclaims itself there is no effort anywhere that can keep a dieter from describing Decide to Discuss Municipal As what the doctor said, what his wife said, and what the chap he met on the train told him concerning his choice of menu. By the time the recital is over some of the glory is off the pudding.

"There have been the pathetic efforts, too, of the conscientious mother who has endeavored with patient—and quite unavailing—sweetness to lure the children from the alleged evils of the plum confection to a 'lovely rice pudding, only to discover that the whole tribe were blood relatives of Milne's Mary Jane.

"Who will deny that science has vindicated itself in vin- taxation as well as the two-year to it this week that it was realized dicating the ancient and honorable, if not chieftain then king, of the pudding race?"

DEPARTMENT OF TRADE AND COMMERCE OTTAWA, CANADA

October 11th, 1930.

To Women, Everywhere in Canada

Protect Your Breadwinner's Job!

Are you one of those whose lot in life consists in looking after the home?

If so, unless you happen to be among the fortunate ones who have means of their own, you are dependant upon some one husband, father, brother, sister, son, daughter-to provide you every week with the money you must have to pay the grocer, the butcher, the baker, the milkman, the druggist, the dry goods merchant, and all the other dealers for the things you have to order from day to day.

It would be a terrible thing, wouldn't it, if next week your house allowance were suddenly to be shut off! Yet that is what might happen if your breadwinner were unexpectedly to lose his business, or his job!

Are you doing everything you could do-everything you should do-to spare yourself a misfortune of that kind?

Your breadwinner may be a professional man, or he may be in business as a merchant, or as a farmer. If so, he wants customers, more and more of them-the kind who pay their bills regularly in cash. Isn't there something you might be doing to help those customers, so that they in turn could do more business with him?

Some of them are probably growing or making things of the kind you have to order from day to day. So long as such things find a buyer, their jobs are secure. But if they should fail to find a buyer, for no better reason perhaps than that you and other women thoughtlessly allow yourselves to be sold articles that have been imported, they lose their jobs, in which event your breadwinner loses them as customers. And naturally you don't want that to happen!

Or perhaps your breadwinner is himself an employee. If he is, the safety of his job depends upon there being plenty of people, who are steadily employed at good wages, to whom his employer can cater. Obviously there will be more of such people, the more you and your friends see to it that for your daily needs you buy things that have been produced right here in Canada. Because when you forget and buy an article that has been made in some other country, you are depriving some one of a job in this country.

Other women, everywhere in Canada, are being urged to protect the job of your breadwinner by always giving a Canadian made article preference over one that has been imported. Won't you do the same for their breadwinners, and incidentally make your own income that much more secure?

Very sincerely yours,

Minister of Trade and Commerce.
