Can't PLAY Can't REST

-child needs Castoria

WHEN a child is fretful and irritable, seems distressed and uncomfortable, can't play, can't sleep, it is a pretty sure sign that something is wrong. Right here is where Castoria fits into a child's schemethe very purpose for which it was formulated years ago! A few drops and the condition which caused the trouble is righted; comfort quickly brings restful sleep.

Nothing can take the place of Castoria for children; it's perfectly harmless, yet always effective. For the protection of your wee onefor your own peace of mind-keep this old reliable preparation always on hand. But don't keep it just for emergencies; let it be an every-day aid. Its gentle action will ease and soothe the infant who cannot sleep. In more liberal doses it will

effectively help to regulate sluggish bowels in an older child. All druggists have Castoria; it's genuine if you see Chas. H. Fletcher's signature and this name-plate:
