Atomic Theory Is Discussed By Scientists

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was "Is the Universe, Including Man, Evolved by Atomic Force?"

Among the Bible texts included in the lesson-sermon was the following from Romans 13:1: "Let every soul be subject unto the higher powers. For there is no power but of God; the powers that be are ordained of God."

The lesson-sermon also included the reading of citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, one passage being as follows: "Spiritual evolution alone is worthy of the exercise of divine power."

LOSE YOUR FAT This sensible way

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape and fill you with a vigor and tireless energy you'd almost forgotten had existed—you get the needed exercise.

As a result instead of planting yourself in an easy chair every free moment and letting flabby fat accumulate you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

Kruschen Salts are the up-to-date Fountain of Youth. Take one-half teaspoon in a glass of hot water to-morrow morning and every morning—be careful of the foods you eat—take regular moderate exercise—then watch the pounds slide off.
