

BURDOCK BLOOD BITTERS

Pimples On Face Humiliated Her

Miss Frances Lodge, R. R. No. 8, Dunnville, Ont., writes:—"I used to feel very humiliated whenever I would go to town, on account of the breaking out of pimples on my face, caused from impure blood. Now all that has vanished and I have not been bothered since I took part of a bottle of your wonderful medicine Burdock Blood Bitters."

INCREASE TAXATION

It is semi-officially announced that there will be increases in taxation this year. This is very greatly to be regretted because already the burden of taxation is heavy and just now people can ill afford any addition to that burden. However, the bills have to be paid and the people have to pay them. The budget must be balanced, whether it be in the state, the business or the home or trouble will soon be brewing.

ORIENTAL PROBLEM

Practically every legislature that has been elected in British Columbia has taken a shot at the Oriental problem but so far little if any change has been made by legislative action.

Many years ago slavers brought Negroes to the southern part of what is now the United States and since that time there have been racial difficulties in that part of the country. The effort to provide the cheapest kind of labor provided a thorn in the flesh that will persist throughout the ages.

In Prince Rupert railway builders and others imported cheap labor from the Orient in order to increase their profits. For years most of the manual work and also domestic work in many homes was done by Orientals but, chiefly through the influence of labor organizations, the importation of the cheap labor was stopped.

Today many people claim to be suffering from Oriental competition. This is the direct result of the sin of our fathers who brought them here to flood the labor market and secure larger profits. They are now settled in the country and cannot be removed any more than can the Negroes be moved from the southern states. They are Canadian citizens in everything but the right to vote. If they had the right to vote the agitation against them would at once cease because all politicians would be looking for their support.

It may be remarked here that the very people who objected to Oriental competition in the labor market are the ones that today take advantage of the opportunity to deal with them, now that they are in business. At one time the Oriental problem was a labor problem. Now it is a business problem. Eventually it will solve itself.

OMINECA AND MANSON

Just as Pooley was to be banished from the Legislature a few years ago by doing away with his seat, so Manson is to be eliminated by abolishing his seat. We prophesy that one effort will be just as successful as the other. The former Attorney General is too good a man to be left without a political home. He could have the nomination in a number of ridings in the province and doubtless after the next election will be found, either resuming his position as first lieutenant to the leader of the opposition or holding one of the most important portfolios in a new administration. At any rate he will be there.

Mussallem's Open Second Cash and Carry Grocery

OPPORTUNITY FOR PEOPLE OF SECTIONS 6, 7 AND 8 TO SHARE IN BENEFITS OF CASH BUYING

The popular response given by the householders of Prince Rupert to the Economy Cash & Carry Store on Third Avenue, the first in Prince Rupert which we opened just 18 months ago, has convinced us of the need of another Cash & Carry store. This, combined with the fact that we are satisfied that the householders do appreciate the very material savings effected by purchasing their pantry supplies on the cash and carry principle, has prompted us to change our Fifth Avenue store to Economy Cash & Carry No. 2. Alterations to be effected will make the new Cash & Carry store convenient and handy, where you will receive the same courteous attention we have always endeavored to render our customers.

The reductions in operating cost effected by the change will make it possible for us to offer our customers the best of food products at prices much lower than formerly.

We appreciate the support given us in the past and solicit a continuation of your patronage under our progressive policy of lower prices.

The meat department will be conducted as usual under the management of W. M. Jones, who is well and favorably known to a large circle of satisfied customers.

Orders amounting to \$3.00 or more will be delivered free. For orders less than \$3.00 the small charge of 10 cents will be made.

Man in the Moon

Jake says he saw a dollar last week and he's been chasing it ever since.

Sing a song of two bits.

Worth about a shilling.
Once was sneered at for a tip
With words both curt and chilling.

But today that little coin
Seems about a dollar
Anyone who loses it
Sets up quite a holler.

"I understand your wife is quite ill."

"Yes, she had a slight cold; tried to cure herself by reading a daily health hint and is suffering from a typographical error."

An inquirer asking Rastus about his native village:—

"Rastus, how many people live in this town?"

"Bout 4 000 people, suh."

"How long you lived here, Rastus?"

"Bout 40 years, suh."

"How many people when you came here?"

"Bout 4 000 people, suh."

"You mean to tell me there were 4 000 people 40 years ago, and only 4 000 now? Hasn't the population grown? Have no people moved in; no babies been born?"

"Yes, suh, yes, suh—babies been born, but you see it is this way: Every time a baby is born, some one leaves town."

"And what, my man, is your vocation?" said the condescending matinee idol to one of the backstage staff.

"I'm a Baptist," replied the scene shifter.

"No, no, my good fellow," protested the actor. "That is your belief. I want to know your vocation. For example, I am an actor. That's my vocation."

"No," retorted the scene-shifter, "that's your belief."

Vancouver Island Bus Service Not First Monopoly

"It is not the first time that this sort of thing has been done since the present government took office," said A. M. Manson, M. L. A. for Omineca, in speaking in the Legislature last week on the Vancouver Island bus franchise monopoly. Hon. H. H. Stevens got valuable privileges at Stewart, and turned them over to the C. P. R., he alleged. He also claimed that the West Kootenay Power and Light Company, when it wanted to extend its operating territory, had been checked by a condition of exclusive franchises in the Rossland district.

Captain Speaker At Rotary Today

Capt. Miller, master of the Canadian National Steamships ocean freighter Canadian Ranger, which is tied up at the local dry dock for the winter, was the speaker today at the weekly luncheon of the Rotary Club in the Commodore Cafe. He told his listeners some very interesting things about New Guinea which, when Australia is classed as a continent, can be called the largest island in the world. The program for today's luncheon was in charge of G. E. Gulick, S. D. Johnston, the president, was in the chair.

Millionaire father of the bride (showing the presents): "This next room is the toast-rack room.—Humorist, London.

A Cup of BOVRIL every day helps you keep the 'flu away

Bovril builds Strength without fat

ISLAND COAL IS GOOD COAL

WHEN BLACKBERRIES ARE RED-THEY'RE GREEN

All you've got to do is to look at a blackberry to see if it's "ripe". Of course, all coal is black, but there are certain grades which are immature or "unripe".

Coal is graded as "good," "bad" or "indifferent" according to its age. The older the coal, the better it is for heating purposes. The "youngest" coal suitable for fuel is known as "lignite". It is so young that it retains the texture of the wood from which it was formed.

True, lignite is a fast, free-burning fuel, yet its average heat content is approximately one-third less than that of bituminous coal, which is more aged, and contains less moisture and a much higher percentage of combustible matter.

Nanaimo-Wellington and Comox Coals are among the highest grades of bituminous coals in the world, because of their high average heat value.

The consumer's best value is Island Coal, because, in addition to its heat content, it costs less than the imported varieties.

Remember, all coal looks alike . . . it's all black . . . but you'll get 30% more heat per dollar from Island Coal.
