DAILY EDITION Saturday, Oct. 3, 1931

WHY SUCCESS?

Sir Thomas Lipton, best known in modern years as the man who unsuccessfully tried to wrest the yachting honors from the United States, made his huge fortune largely as a result of advertising.

SANKEY TO THE FORE.

Lord Sankey, Lord Chancellor of Great Britain, is the leading spirit of the Round Table Conference now sitting in London with Mahatma Gandhi as the most picturesque figure in the group.

TRIBUTE OF ESTEEM.

The dinner meeting of the Chamber of Commerce last night was a remarkable tribute of esteem to a man who has been in Prince Rupert only a few years, yet in a quiet way has made his presence felt continually.

New Carrier Collection System

In view of the depression and to make it as easy as possible for people to pay, the Daily News is to be sold on a weekly basis, payable in advance.

The delivery boy will collect each Friday evening for the week following. He buys the papers and sells them to the customers, so there will be no credit given.

Customers now in arrears will pay the amount owing at the office, but this will have nothing to do with the regular collections made by the boy.

Those paid in advance will continue to receive the paper until the subscription expires.

The price of the paper will be 10c a week, payable strictly in advance. That means six papers for ten cents.

It will take a few weeks to get the new system running smoothly, and in the meantime we ask for the co-operation of the readers of the paper.

MOOSE LEGION BAND CONCERT

R. Greenfield, Bandmaster. March—New Colonial Band Vocal Solo—Selected

Mrs. C. E. Cullen String Selection—Selected—Miss N. Lawrence and pupils, assisted by J. Brough, base viol; Mrs. J. Black, piano.

Sees Fight Ahead, So Grits Teeth

Former Resident of Prince Rupert Mentions Conditions in Old Country

R. H. Leighton, formerly of the local forestry department, who is now in London, England, writes to say that he feels a little heartily hungry for the west sometimes and likes to think of the time when he will see it again.

Speaking of the economic situation, Mr. Leighton says, "Mr. Snowden has just dealt us another walloping with an additional sixpence on the pound on the income tax.

Prince George Man Succumbs

George Bennett, Canadian National Express Agent, Dies—Given Masonic Funeral

PRINCE GEORGE, Oct. 3.—George Bennett, aged 53, Canadian National express agent, died recently at his residence here.

The funeral service, one of the largest ever seen here, was conducted in Knox United Church with Rev. Peter Connal officiating.

Man in the Moon

Just when the round table conference on India was in progress, the unemployment troubles at their height and the Peace River railway problem being tackled, along comes the world series baseball and overshadows them all.

We turn from affairs of state From problems great and small And give our minds vacation for The great game of baseball.

There's nothing wrong with Prince Rupert except—

If you call her "kid" you are very likely to get her goat.

A young couple who had just married received many presents after establishing their home in a suburb. One morning they received two theatre tickets with a note which read: "Guess who sent these?"

On the appointed evening they went to the theatre, returning very late. To their astonishment, everything of any value in the house had been carried away.

On a table in the dining-room they found this note: "Now you know."

A SATURDAY SERMON

What Are You Worth?

What Are You Doing for Mankind, the Young, and Your Home?

Rev. Dr. F. W. Dafeo, First Baptist Church

What are you worth? I do not mean in dollars and cents, for, if that were the measurement, some of you would be millionaires and yet be paupers, paradoxical as that may sound.

There are numbers of souls who give and pass on to their eternal destiny these days and are forgotten in a week, while there are others who have not based their worth or contribution to society in dollars and cents, they have accumulated but in the incarnation of themselves into the lives of others who will live long after their bodies have disintegrated in the bosom of mother earth.

What is your life worth to the men and women, to the youth about you? Have you given something out of your own life that has enriched them, or is it a fact that you have merely stood as a speck between two eternities, to be forgotten as a dream dies at the opening day?

Money never has, nor can it buy happiness; it only brings you to the place where you can, if you will, make others happy and thus deposit your wealth in a bank that knows no depression and whose security is underwritten by the nail-pierced hands of Christ, the Son of God.

Remember, "a man's life consisteth not in the abundance of the things which he possesseth." Luke, 12:15. Have you given anything of yourself, has anyone caught a glow of heaven from you because they saw something of its color and glory in your life and conduct?

Now, really, what are you worth? Money won't answer the question. A restoration of prosperity will not bring that peace of mind and heart that is so much needed today. These will doubtless aid, but service to your brethren and humanity in the spirit of the Master is the keynote.

He who came not to be ministered unto, but to minister and to give His life a ransom for all. Life is full of heartaches; need and sorrow stalks on every corner; tears flow from eyes whose flood gates are open and cannot stem the swollen floods that come.

How those about you need you France that have a speed of 167 and yours! These are days when

you can make your best contribution to the lives of men and women, whose lives, if saved, will mean much for the betterment of society and the Kingdom of God.

Do not pass on as so many are doing today, leaving behind nothing but leaves that are scattered by the autumn winds; but put your life of love and sunshine into others. Let your light shine that others may be encouraged, cheered and blessed. Make it harder for men to do wrong and easier for them to do right, and your memory will be cherished throughout all time and men will say, "There was a man rich in his two eternities. This is the need of today."

"O God of righteousness and grace, Seen in Christ, thy Son, Whose life and death revealed Thy face By whom Thy will was done, Inspire Thy heralds of good news To live Thy life divine. Till Christ be formed in all mankind, And every land is Thine."

Should Secure Better Rates for Wheat Shipment

At the dinner meeting of the Chamber of Commerce held in the Commodore Cafe last evening G. W. Nickerson said this was a time when Prince Rupert should make an effort to secure equal rates on grain shipments with Vancouver. It was a shippers' market and vessels were willing to go anywhere to secure cargoes.

Equipped with 500 h.p. motors, all steel airplanes have been built in France that have a speed of 167 miles an hour despite their weight.

Screen Star Is Wedded

Nancy Carroll, screen actress, is seen with her new husband, Bolton Mallory. Miss Carroll recently was divorced from Jack Kirkland.

NEWS OF THE MINES AROUND PRINCE RUPERT

Dunwell Mill to Be Moved South—Telkwa Coal Mine Looks Good—Ultimatum Issued to Duthie Shareholders

The Bralorne Mining Company is reported to be considering the purchase of the mill on the Dunwell property at Stewart for installation on the Lorne property. The Dunwell mill is regarded by mining men as one of the most efficient plants of its kind ever built in British Columbia.

Unless shareholders on record as at September 19 come through to the extent of two cents for each share held, they stand to lose all their vested interests in the Duthie Mines Ltd., according to a circular which has just been issued by the company.

Leo Pauleer, after having spent some months in the National River gold field, has returned to Alice Arm. Pete Anderson, also of Alice Arm, is remaining in the new gold field for the winter.

The entire coal holdings of the Dockrill mine, seven miles from Telkwa, cover an area of thirty square miles and the property belongs to the Cassiar Coal and Land

Co., Mr. Dockrill having secured a five-year lease on a small portion. The nature of the deposit is such as to lend itself to the most economical development and operation, the operation, the coal outcropping from a steep hill rising from Goat Creek. At this point bunkers have been built in such a manner as to allow for gravity feed from the trucks on the hauling end. From the outset development was carried out on commercial fuel and, for the past ten months, all shipments have been made from coal taken out in the process of driving the two slopes now in a little over 200 feet. From these workings two cross-cuts have been run to establish room and with the completion of other workings being started this week, additional men will be put to work and the mine will be well away for quantity production. Just now production ranges from ten to fifteen tons daily, but within a few days it is expected this output will be more than doubled. Coal already marketed has reached a total of 2000 tons. The coal is comparatively free of shale and has a greater degree of British thermal units than many other coals. The two slopes are being run in one solid body of high quality coal.
